## RIVER FLOODS DAMAGE B.C. HIGHWAYS

### Germany Seeks Colonies In Africa

#### Opening Up Of New Territories Urged At Big Conference

Germany's Request For Colonies Placed Officially Before World By Hugenberg at London Session  
**Idea Is Made For Debt Alleviation**

Canadian Press and Associated Press  
London, June 16.—Germany asked the world today for an African colonial empire.

A memorandum prepared by Dr. Friedrich Hugenberg, German Minister of Economics, for the economic committee of the World Economic Conference, laid there were two possible ways of increasing Germany's capacity to meet her international debts—first, by giving the nation an African empire where large public works schemes could be carried through; or, second, by opening up other new territories "to this people which has not enough space in which to live."

Dr. Hugenberg took the opportunity presented by the conference to place officially before the world for the first time Germany's request for colonies. The memorandum set forth the German views of the world crisis and said Germany was "at the head of the battle against the complete destruction of the world."

The document was largely a plea for debt alleviation and was submitted to the conference as negotiations proceeded over the German moratorium, which holds virtually all Germany's foreign debt payments.

"Re-establishment of national economy is the first essential of recovery," he said, "and this is possible only if international debts are equitably regulated."

"We Germans," the ten-page memorandum said, "are the poor devils and have nothing more to lose."

Dr. Hugenberg took a direct shot at political loans, citing French credits granted in the Balkans.

"These are a great injury against economy," he said, "to pay the debts as erroneous as to make them."

**SOVIET FARM GRIP FIRMER**  
Communists Decree Extension of Political Control to All Collectives

Associated Press  
Moscow, June 16.—The communist party tightened its grip on Soviet agriculture to-day by decreeing through its central committee the immediate extension of control by its "political sections" to all collective farms.

Since January, 2,776 political sections, comprised of small groups of party members, have been functioning at state farms and tractor stations that amount to a widespread organization of vigilantes.

The chief activities of these groups have been to perfect discipline, weed out inefficient elements and generally improve production. Great successes are claimed for their operations.

**STABLE CURRENCY PLANS DEBATED**

Programme Before World Economic Conference in London About Three Days Hence; Committees Map Work

Canadian Press and Associated Press  
London, June 16.—British, French and United States bankers were meeting to-day studying the currency stabilization programme, and it was reliably stated they expected to reach a decision in two or three days.

Memoranda from official British sources to-day, on the heels of a similar United States pronouncement, came a denial that an agreement had been reached on stabilization of the dollar-pound exchange.

With the currency stabilization problem not yet settled, the world conference itself, divided into two committees—one on economics and the other on finance—concentrated on mapping out the work to be done and then adjourned over the week-end.

### WILL DISCUSS TAX PROBLEMS

Union of B.C. Municipalities Representatives to Meet New Commission

Will Present Taxation Resolutions at Later Session, Municipal Head States

Reeve William Crouch, president, and other officials of the Union of British Columbia Municipalities have been invited to meet with members of the government's new municipal commission for a general discussion on municipal taxation matters, it was announced this morning.

The meeting will be held in the Vancouver Court House next Tuesday at 10.30 a.m.

The union representatives will be Reeve Crouch, George E. Martin, solicitor, and Mayor A. Wells Gray, secretary.

The meeting is the first of a series of meetings which will be held in order that its members may have a clearer understanding of individual cases when considering them.

**SAANICH ROADS TO BE REPAIRED**

Council Grants \$1,020 For Immediate Improvement of Highways

Plans for the immediate repair of Saanich highways, which for many months have been a source of complaint, were laid before the municipal council by H. H. Allen, engineer, yesterday evening, and the proceeding of the work sanctioned.

In view of anticipated heavy traffic over the roads during the summer, Mr. Allen felt that some action was necessary to put some of the highways, many of which are badly in need of repair, into shape.

He realized that the council could not provide a very large appropriation, but stated he thought he could treat the worst roads if the council would grant \$1,020 for materials.

The grant was authorized and the engineer instructed to proceed with the work immediately.

**PURCHASERS SHARED PROFIT**

Canadian Financiers' Part in Company Transaction Told at U.S. Hearing

Canadian Press  
Washington, June 16.—Sir Herbert Holt, president of the Royal Bank of Canada, and T. B. Macaulay, president of the Sun Life Assurance Company of Canada, to-day were identified as a Federal Trade Commission hearing on the purchase of the Laclede Gaslight Company of St. Louis, an organization which in 1927 was sold at \$14,000,000 profit.

A witness at the trade commission's utilities investigation, Charles A. Munroe of Chicago testified that in 1924 the Laclede Company had been purchased.

(Turn to Page 2, Col. 5)

### Share In Discussions At World Conference

Among the many delegates attending the World Economic Conference in London are those pictured above, all of whom are Moslems. Reading from left to right they are—Prince Milo of Montenegro, Sred Amyad Ali, Dr. Shafat Ahmad Khan, the Begum Shah Nawaz, Zafarullah Khan and Abdullah Yusuf Ali, C.B.E.

## NO REPORT OF MATTER IN THE NORTH

People at Nome, Where World Flier Was Expected to Alight After Hop From Siberia, Have No Word as to Where He Came Down

Nome, Alaska, June 16.—Sparsely settled northlands or Bering Sea to-day held the fate of Jimmie Mattern, round-the-world flier, unreported since he left the Siberian coast two days ago.

On the ninth and most difficult leg of his solo world flight, Mattern's gasoline supply had been exhausted by 8.30 o'clock, Pacific Standard Time, yesterday evening. Along the 2,300-mile hop from Khabarovsk, Siberia, no ship or land settlement had reported sighting his plane.

While searching plans were held in abeyance to-day because of the frequency with which "lost planes" have turned up in Alaska, aviation men recalled he had said before leaving Khabarovsk several days ago on his first attempt to reach Alaska that his plane was in "fine shape."

**NO STORMS**

No severe storms had faced him on the "Post-Gatty trail," over which the globe-trotting record-holder—Wiley Post and Harold Gatty—had flown two years ago this month, landing at Solomon Beach, forty miles east of here.

The main danger which faced Mattern was the formation of ice on the wings of his machine if he blew through cloud banks or fog. With the temperature near freezing, his plane would have been forced down quickly.

He left Khabarovsk at 11.30 a.m. Pacific Standard Time, Wednesday, after having been forced back after eight hours in the air two days previously.

**NO WORD AT MOSCOW**

Moscow, June 16.—Officials here had heard nothing early to-day of Jimmie Mattern's progress since he left Khabarovsk, Siberia, on the transpacific leg of his world flight, but they said they were not unduly alarmed yet.

It was pointed out they are accustomed to long delays in communication from the east. When the United States aviator started on his second transoceanic attempt Wednesday night, reports were that he would encounter better weather than on his previous start.

(Turn to Page 2, Col. 7)

**URGED TO KEEP MONEY AT HOME**

London, June 16.—Hon. Neville Chamberlain, Chancellor of the Exchequer, to-day sent a letter to the stock exchange requesting members to discourage the purchase of large blocks of foreign securities for the present.

"This country is not, in my judgment, at present in a position to represent the Columbia-Revelstoke constituency," Colonel Foster may run as an Independent Conservative but will not quarrel with Mr. Bowser or be opposed by a Bowser candidate.

The Victoria Bowser Conservative.

### ALBERTA WARS ON GRASSHOPPERS

Edmonton, June 16.—Intensification of the poisoning campaign of the Alberta Department of Agriculture was announced to-day as 1,500,000 acres became seriously menaced by the grasshopper plague, now at its peak.

### REALTY SALES OVER \$350,000

Real estate sales in the first five months of the year totaled \$364,305, according to figures released this morning by George Okell, city assessment commissioner. The May sales amounted to 72,635 on forty-one transactions.

The total movement of real estate, including title transfers, wills and probates handled through the land registry office amounts to \$942,172 for the year to date.

### Political Paragraphs

N. S. Loughheed Managing Unionists.  
Col. W. W. Foster May Oppose Dr. W. H. Sutherland.  
C.C.F. Esquimalt Prospects; a Protest.  
Labor Splits on C.C.F. Merger.

Fate of Premier Poimie's new Conservative Unionist, Party apparently rests in the hands of N. S. Loughheed, whose policy when he was Minister of Public Works caused an avalanche of criticism to descend upon the government.

Mr. Loughheed has not dropped politics completely to devote his whole time to the lumber business as it was reported he would do when he left the Poimie cabinet. He is now heard of what is known as the Loughheed Committee with headquarters at Vancouver.

An outlet for his energy was found in organization work when he relinquished his portfolio of Minister of Lands. It is understood he plunged enthusiastically into the task of helping the Premier draft a manifesto for the Unionist Party and then proceeded to get ready for the political battle by establishing campaign headquarters in Vancouver.

As Mr. Loughheed is the man credited with organizing the Conservative victory of 1928, Unionists are pinning their hopes on him.

Whether Mr. Loughheed is taking the sword of political battle out of Mr. Poimie's hand has not been announced.

The chief of the British Columbia Conservative Association, Col. W. W. Foster, will probably back home, with Dr. W. H. Sutherland, who was Minister of Public Works in the Liberal administration, for the right to represent the Columbia-Revelstoke constituency. Colonel Foster may run as an Independent Conservative but will not quarrel with Mr. Bowser or be opposed by a Bowser candidate.

The Victoria Bowser Conservative.

## RUSH JOB ON CITY TAX BILLS

Treasury Clerks Hasten to Get Out Annual Notices in Short Period

No Holidays Until Job is Completed Is Order

All available clerks in the treasury office were busy this morning writing out the annual city tax notices. The delay in settling the tax rate for the year has resulted in making this a bigger rush job than usual and orders have been issued that no clerks will be allowed holidays until the work is completed.

There are between 15,000 and 20,000 notices to be mailed.

When the notices are out, a jump in the daily tax collections is anticipated, although the receipts under the prepayment plan have already far exceeded expectations.

To date the prepaid account for the year totals \$475,213.06, which is nearly \$53,000 ahead of the collections at the same date last year. An additional \$3,473 has been received in full payments, making a total collection of current accounts of \$478,686.28, well over 25 per cent the total levy.

NOTED OFFICIALS  
Following is a list of the postal delegates arriving here to-day:

Great Britain, Sir F. H. Williamson, and D. O. Lumley, head superintendent of posts.

Italy, Dr. Pietro Tosti, director-general of posts, and Michele Galdi, director of administration, and Kanuma Hayashi, administrative executive, Shinchiro Midzukami, head of the bureau of administration, and Kanuma Hayashi, administrative executive.

Holland, A. P. F. Duynstee, inspector-general of posts, W. R. van Goor, inspector of posts, telegraphs and telephones.

(Turn to Page 2, Col. 6)

### RAIL WAGE CUT PLAN OPPOSED

Chicago, June 16.—Spokesmen for the 1,000,000 union workers on the Great Lakes 1 railroad declared to-day they would ignore the demand of their employers for a 11 1/2 per cent reduction in wages to replace a 10 per cent temporary "deduction" in effect at present until November 1.

### BLACK SWANS ARE SOUGHT

Six Pairs of Australian Birds Wanted For Elk Lake Swannery

Efforts are to be made to have one thousand birds in the Elk Lake Bird Sanctuary and Swannery, according to Dr. Cecil French, who with Ernest Todd, has taken a great interest in getting birds.

Dr. French and Mr. Todd are anxious to get six additional pairs of Australian black swans and more native wild swans and geese. They are in a position to secure these birds but are anxious for other citizens to lend a hand in financing them. They have spent considerable of their own money as well as much time in furthering the cause of the swannery but they wish to grow at a quicker pace and as a result are looking for assistance.

"If we could get between three and five hundred dollars we would be able to get the Australian black swans and some of the other birds we are seeking," Dr. French said. "We want to make the sanctuary the talk of the whole Pacific Coast."

The following officers were elected at a large and enthusiastic meeting of the Alberni-Nanaimo Provincial Liberal Association on Wednesday evening in Nanaimo: Hon. president, T. D. Pattullo; hon. vice-presidents, Geo. S. Pearson, M.P.P., and L. A. Hanna, M.P.P.; president, George Forest, Alberni; vice-presidents, W. Ford, Comox; J. J. Paterson, Nanaimo; Ray, Robt. Taylor, Errington, and W. Waugh and H. McRae, Nanaimo; secretary, W. Mellor, Nanaimo; treasurer, W. H. Cooper, Nanaimo; executive, W. E. Sagers, A. H. Lynche, C. C. Binik, J. P. Cooper, P. Michelson, H. Reid, P. Drinkwater, J. Machek, Mrs. M. Pearce, (Turn to Page 2, Col. 7)

## Warm Weather Causes Streams In Southeastern Part Of Province To Rise

### ONTARIO BANK ROBBED TO-DAY

Canadian Press  
Mimico, Ont., June 16.—Three men robbed the Royal Bank of Canada branch here of \$2,000 to-day and escaped in an automobile. Two of the men went into the bank, armed with sawed-off shotguns, held up the staff while the third man waited, and then the trio sped away.

### POSTAL PARTY REACHES CITY

Experts Interested in Fast Ship and Air Mail Services Out of Victoria

Sir Frederic H. Williamson Will Address Canadian Club Here To-morrow

Led by Brig.-Gen. Sir Frederic H. Williamson, director of postal services in Great Britain, members of the executive committee of the Universal Postal Union, which met in Ottawa recently to plan the agenda of the international conference to be held in Cairo, Egypt, next year, reached Victoria by this afternoon's boat from Vancouver.

The overland tour has opened the eyes of the postal union to Canada's strategic position in respect to the future development of international postal relations, Sir Frederic Williamson said.

The Canadian route, at the present time, offers an ideal pathway from Great Britain to Europe to the Orient, he added. Development of this route had been materially aided by the Canadian Pacific Railway in synchronizing its speedy Atlantic and Pacific steamship schedules and its train connections to provide continuous handling with the minimum of delay.

### ON TRIAL IN MASSACHUSETTS

Witnesses at Barnstable, Mass., Testify Against Kenneth Buck

Associated Press  
Barnstable, Mass., June 16.—Walter Cahoon, twenty-six, neighbor of Kenneth Buck, to-day told a Cape Cod jury how Kenneth had told him of implication in the abduction of ten-year-old Margaret "Peggy" McMath.

He said Kenneth had gone to his home the night of the abduction and asked him to play golf with him. During the match, Cahoon testified, Kenneth told him he was in a "devil of a mess," and that he was connected with a rum ring which had kidnapped the McMath child.

Cahoon said they played by the shack near the eighth fairway, and that Kenneth said he wanted to find out if the child still was there. They learned nothing, however.

**AUTO AND MAN**  
Anton-Nunes, of Harwich, next testified he had gone to a dump in Harwich on May 2 and seen a car there with a black cloth over the dashboard.

He testified he had seen a man leave the car and walk into a group of pines. The state had contended Kenneth blackened his face with burnt cork near the dump before going to the Harwich Centre grammar school to get the child.

John M. Silvis, Harwich negro, later took the stand and said he had seen a man drive by him on the afternoon of the crime.

"The man who was driving and was supposed to be colored didn't seem to me," he said. "He was the finest looking colored man I ever seen."

**Lavallee Ceremony Soon at Montreal**

Canadian Press  
Montreal, June 16.—Remains of Calixa Lavallee, to be brought from Boston where the French-Canadian soldier who fought for the north in the United States Civil War was buried, will rest in a mausoleum in the Cote des Neiges Cemetery here. Lavallee composed the music of "O Canada."

**BRAZILIANS WILL BURN MUCH COFFE**

Sao Paulo, Brazil, June 16.—The Sao Paulo State Coffee Institute to-day urged the government to sanction the burning quickly of nearly 6,000,000 sacks of retained coffee to provide space in warehouses for the new crop in July. A 20,000,000-sack crop is expected.

Brazil already has destroyed more than 15,000,000 sacks in two years.

**HEAT WAVE SWINGS ACROSS THE PRAIRIES**

Calgary, June 16.—Summer's first heat attack gripped southern Alberta to-day, claiming one life and threatening damage to wheat crops as temperatures spurted to as high as 100 degrees in the shade.

Mike Kukuro, beet worker of the Lethbridge district, fell victim to the sun's burning rays, dying in Lethbridge hospital from sunstroke suffered while working in the sugar beet fields.

Heat records for the month of June were marked up in Lethbridge where the mercury ascended to 96 compared with the previous high mark of 95 1/2 degrees in June, 1919. Calgary's citizens perished in 86-in-the-shade.

weather with no signs of the thermometer pointing downward.

Medicine Hat, "Alberta's Oven," continued sweating in weather the thermometer recorded as 100 degrees in the shade. Other southern points felt furnace-like blasts.

Farmers were worried about their wheat crops as the heat threatened the grain fields. Extensive rain appears shortly serious damage is feared.

Winnipeg, June 16.—Equatorial heat scorched the prairies again to-day, with few areas obtaining relief. New records for the season were hung up as the torrid weather passed over Alberta into Saskatchewan and Manitoba and eastward.

### Creek Cuts Across Balfour Road, East of Nelson; Lake Ferry Route Changed

Road West Of Revelstoke Flooded

Rise of River at Kelso, Washington, Leaves 1,000 People Homeless

Associated Press  
Revelstoke, B.C., June 16.—Rising streams along the Transcanada Highway have flooded sections of the road between Sicamous and Revelstoke, necessitating the temporary closing of the road. Continued warm weather sent the Illecillewaet River to within two feet of the 1928 high and the Columbia to within five feet of the 1894 high. The latter has risen seven feet since Sunday.

Canadian Press  
Nelson, B.C., June 16.—Balfour Road east of Nelson, which connects with the main lake ferry for traffic for the east, is closed six miles from Nelson owing to Six-Mile Creek having cut a channel twenty to thirty feet in width through the road. The main lake ferry will run to Willow Point to carry autos east and west.

Waters continue to rise as warm weather continues. At Grand Forks the water in the Kettle River jumped thirty inches in twenty-four hours. At Trail the Columbia rose twelve inches in twenty-four hours.

The Kootenay River above Nelson rose five inches.

At Blake, on the C.P.R. main lake line about thirty miles from Nelson, a huge mudslide came down blocking the tracks. Transfer of passengers across the slide is being accomplished by use of a C.P.R. steamer.

**BUILDINGS MAY FALL**  
At Sandton it was believed several business establishments being undermined would fall into the raging waters of Carpenter Creek, which has put a lot of the residents in flight. If the buildings go the Silvermine mill and C.P.R. bridge will be threatened.

The two creeks at Sandton yesterday went on the rampage when the big dams through which they flow under the main street became blocked by stumps and debris carried down stream by the raging torrents. The flume ran full for a time and then overflowed. Basements of houses and private homes were flooded.

Practically the whole of the male population of the towns of Silverton and New Denver came to Sandton yesterday to assist in relieving the situation.

**BRIDGE DAMAGED**  
In Nelson Cottonwood Creek washed out a section of a cement highway bridge.

At Pileener's Flats, south of Salmon, the Salmon River is backing over the highway. These are but a few of the creeks that are roaring and threatening extensive property damage.

(Turn to Page 2, Col. 4)

**DIED AT CHEMUNUS**  
John Fulton, aged seventy-four years, passed away Sunday at his residence, "Sunnyside," Chemunus. He was born in Glasgow and lived in Kew, Alberta, from 1904 to 1918, when he came to Vancouver Island. He is survived by his widow, two daughters, Mrs. J. C. Bailey, Penticton, and Mrs. E. Deane Freeman, Victoria; and two sons, D. Fulton, Chemunus, and J. S. Fulton, Pittsburgh.

## BIG FOUR IN WHEAT MEET

Brief Meeting in London Adjourned Till Monday; League Memorandum Read

By GEORGE HAMILTON  
Canadian Press Staff Writer  
London, June 16.—Delegates of the "big four" in wheat exports—Canada, the United States, Australia and Argentina—met privately to-day to discuss ways and means of limiting production and thereby raising the price. The meeting was brief and was adjourned till Monday.

Representatives of both Australia and Argentina are securing new instructions from their governments in view of the situation created by the statement of Prime Minister R. B. Bennett of Canada yesterday to the World Economic Conference, when he called for contraction of the available supply by possible crop acreage limitation in the exporting countries, and an increase in the demand by importing countries.

**TALK WITH CHAMBERLAIN**  
Subsequently Premier Bennett and Rt. Hon. Stanley Bruce, Australian Minister in London, had discussions with Rt. Hon. Neville Chamberlain, the United Kingdom Chancellor of the Exchequer, and Lord Halifax, British War Minister. Presumably they talked over the lines of Mr. Chamberlain's World Conference declaration that Britain was ready to co-operate in any scheme for regulating wheat and the understanding that the British government was ready to examine any workable scheme.

And wheat promises to play a large part in the World Conference. The draft agenda for the economic committee of the conference includes "restriction of production and marketing of wheat and raw materials."

**IMPORT RESTRICTIONS**  
A memorandum on price movements published by the economic intelligence section of the League of Nations and circulated among the delegates to-day reveals how restrictions by the importing countries have intensified the price decline.

"It is clear," the memorandum says, "that restriction of imports into the industrial countries has intensified the price decline. The price of wheat in the importing countries has prevented this development taking place there."

**FODDER OUTLOOK**  
"Though the demand for wheat as a human food is inelastic," the report also says, "a sufficient fall in prices would stimulate its use as fodder and so in the end help to sustain the price. The high price of wheat in the importing countries has prevented this development taking place there."

**THIRDLY**, the protection given wheat producers in the importing states frequently has been a sufficient safeguard for the least efficient producers against foreign competition. These producers can grow wheat profitably only at high costs and with high prices, and as these high prices have been paid to all producers, wheat growing becomes a relatively profitable industry in these countries and there has naturally been a shift into wheat production.

## UNUSUAL SEASON IN THE CARIBOO

Canadian Press  
Quesnel, B.C., June 16.—With the exception of the spring of 1934—the year of extreme high water in the Fraser—old-timers here can not recall a year when the snow has stayed so long.  
In 1934, however, cold weather and snow hung on much longer, and there was more snow. On June 13 that year, Harry Jones, here since '03, recalls, the first wagon got through from Stanley to Barkerville. The wagon was empty, with the exception of feed for the eight horses attached to it, and there were twelve men ahead shoveling snow and assisting the outfit over the worst places. The first wagon got through this year on May 6.

## PURCHASERS SHARED PROFIT

(Continued from Page 1)  
Chased by a group of interests headed by the Corporate Investment Company, which he owned.  
The Corporate company paid \$1,200,000 of the \$5,500,000 purchase price while the remainder of the money was supplied as follows: twenty-five per cent by Sir Herbert and Mr. Macaulay, fifty per cent by the Koppers Company of Pittsburgh, a Mellon organization; and twenty-five per cent by the Guaranty Trust Company.

## Stable Currency Plans Debated

(Continued from Page 1)  
Prime Minister R. B. Bennett is Canada's representative on the monetary committee, and Hon. E. E. Riedel, Finance Minister, and Hon. G. Howard Ferguson, Canadian High Commissioner to the United Kingdom, are sitting with the economics committee.

**COLLINS DIRECTS**  
One of the most interesting features of the day was the smooth dominance over the economics committee displayed by Premier Hendrick Collins of the Netherlands, its chairman. Maxime L. Vivier, Soviet Russian spokesman, created a flutter with an attempt to move a Soviet anti-trade embargo solution, but Premier Collins quickly quelled the threatened storm. His placid, deliberate English, his outstretched admonitory pencil, smoothed all corners.

And the final announcement that £10 shillings had been found in the hallway left everyone with the comforting feeling that the world was again on the way to prosperity.

**DISAPPOINTMENT VOICED**  
The gold standard countries, it was said in French quarters to-day, intended to take no steps until approval of a stabilization project had been received from the United States administration. They expressed keen disappointment over the announcement of William Woodin, U.S. Secretary of the Treasury, that his government had not agreed to any currency stabilization proposals, which are understood to have been considered by British, French and United States financial leaders.

The French indicated they thought the stabilization question had been settled when they conceded the chairmanship of the monetary committee to the United States delegation.

It had been reported plans were early complete to stabilize the United States dollar at between \$4.04 to \$4.07 to the pound sterling.

(In a formal statement in Washington Mr. Woodin said the discussions in London "must be exploratory only.")

**PATIENCE NEEDED**  
Main interest in the big conference, the delegation chairman having finished outlining their governments' views on economic rehabilitation, centered on the monetary committee's discussions. Mr. Cox, who declared yesterday after he had named leader of the monetary group that he has always favored sound money policy, said the first thought of the committee would be to justify a conference policy.

He continued they were all of one mind that there was a general disorder, the remedy for which would necessarily have to be without historic precedent. He pleaded for patience and understanding of national difficulties, and ended his brief speech with "Gentlemen, let us now go to work."

The first act of business to-day was to announce the committee on committees, composed of officers of the monetary committee together with representatives of the United Kingdom, Germany, Finland and Czechoslovakia. The Swedish delegate asked that the speech of Rt. Hon. Neville Chamberlain, Chancellor of the British Exchequer, at a recent plenary session be taken as the basis for the discussions of the monetary committee.

**TO LIMIT TALK**  
Finance Minister Guido Jung of Italy suggested the monetary and economics committees work as independently of each other as possible. Otherwise he would go on talking forever," he said.

Mr. Chamberlain said economic and monetary problems must be tackled together immediately, and advocated a policy of cheap and plentiful money, a thesis supported by Canada and the United States. He also urged stabilization of currencies, settlement of the war debts and reparations problems, reduction of tariff schedules and the active employment of credit.

Prime Minister Bennett of Canada endorsed the policies he had outlined. The monetary committee then adjourned until Monday.

**STUDIED OVER WEEK-END**  
Premier Collins said he planned to draft the commission's programme and study it for the week-end with the economics committee meeting again on Monday. He laid out the field of work as follows:

(1) Commercial policy, including provision of foreign exchange for imports and general removal of prohibitions, quotas and the like.  
(2) Tariff and trade policy, including measures other than duties and prohibitions having an effect on international commerce.

(3) Commercial policy, including provision of foreign exchange for imports and general removal of prohibitions, quotas and the like.  
(4) Public works.

Premier Collins followed up the general policy of speeding up the action by urging there be no address on general matters and that other speeches be limited to the institution. He advised his committee members to be careful not to "mix up" the different subjects.

**SUCCESS BASIS**  
Tariff policy and currency policy were closely connected, he said, and

## River Floods Damage B.C. Highways

(Continued from Page 1)

**FRASER HIGH**  
Vancouver, June 16.—Lower temperatures in the Coast Mountains Thursday helped to abate flood danger in the lower mainland to-day.

The Fraser River is running high throughout its entire course, but the level is still nearly three feet below danger point in the Fraser Valley.

The Fraser River is running high throughout its entire course, but the level is still nearly three feet below danger point in the Fraser Valley.

The official gauge at Mission registered 17 feet 9 inches to-day.

**LOSSES IN WASHINGTON**  
Seattle, June 16.—While the Columbia River rose eighteen inches at Wenatche during the last twenty-four hours, residents of Kelso, in western Washington, took count of the damage done yesterday when a 150-foot break occurred in a dam along the Cowlitz River, rendering 1,000 people homeless in downtown Kelso as the water ceased to rise, but it was not receding, nor was it expected to until the break is repaired and pumping begun.

Relief workers estimated 300 families had been forced out of their homes with their families, and many were deprived of almost all their belongings. It was believed it would take two days to close the gap in the dyke. The Red Cross is asking for funds for temporary relief as a drive for funds for temporary relief was to be started immediately.

Engineers predicted it would be not less than a month before much of the flooded property outside the city limits would be tenable.

**SANDBAGS PLACED**  
The Cowlitz River was bubbling under a portion of the dyke and forty men were sent to renew sandbagging. The Entiat, Wenatche and Methow rivers in the Chelan-Okanogan county region, north of central Washington, were flooding orchards and threatening highways and bridges, and the Salvation Army set up an emergency camp on the Columbia River bank at Wenatche and invited residents of flooded homes to eat there community style.

## Postal Party REACHES CITY

(Continued from Page 1)

Sweden, Gunnar Lager, chief director of postal and Thure Nylund, deputy director.

## Police Squad Sent To Mission, B.C.

Vancouver, June 16.—A detachment of provincial police went from Vancouver to Mission to assist in the enforcement of order when Dominion authorities took over the administration to-day of an unemployed relief camp at Mission.

## NO REPORT OF MATTER PLANE IN THE NORTH

(Continued from Page 1)  
Walla Walla, Wash., June 16.—Anxiety of Mrs. Jimmie Mattern, mother of a missing plane, was increased to-day as no word came concerning her husband, daring round-the-world flier.

"We fliers' wives never give up hope," she said, "but he's been unreported since a long time now."

Her vigil, begun nearly two weeks ago at the home of her sister here, when her husband took off from New York, had found her previously confident at all times of his ability to "pull through."

"You must let me know the first minute you hear anything," she said over the telephone.

## Political Paragraphs

(Continued from Page 1)  
Thos. Cook, Wm. Haughan, B. Morley, J. S. Dunn and Chris. Fiddick.

That some Labor men are all for the Co-operative Commonwealth Federation and others are dead against it was demonstrated at a meeting in the Trades and Labor Hall yesterday evening.

Harry Owen, president of the Victoria Council of the C.C.F. and the Victoria and District Trades and Labor Council, declared the movement was the Socialist Party of Canada under a new name.

By thirteen to five those present at the meeting voted for Labor representation of three members on the Victoria Council of the C.C.F. and the naming of a Labor candidate to go before the C.C.F. nominating convention to be included on the Victoria C.C.F. ticket.

**UNITED STATES BILLS SIGNED**  
Washington, June 16. (Associated Press)—President Roosevelt shortly before noon signed the United States industrial control-public works bill and the Glass-Steagall-banking reform bill.

Excursion to Seattle, Saturday, June 17, Princess Marguerite.

## SPORTS AND DRESS HATS, \$1.95

### OLD SEEKERS RUSH TO RANCH

Canadian Press. Peers, Alta., June 16.—While a mine-ore rush is on at Shining Bank, fifteen miles north of here, the results of findings samples assayed at \$10 gold to the ton, James Rush, on whose ranch the discovery was made, fuses to become excited.

"I lived there for thirty years and can't work up any excitement over the said."

Over 100 claims have been staked at a ranch.

### SERMONS WITHOUT MUSIC

Concord, N.C., June 16 (Canadian Press).—Hereafter when he makes an address, says Rev. Paul Hardin Jr., Methodist minister here, he is going to quest there be no music. His reasons: "The conclusion of a recent sermon male quartette began singing 'Now and Forever' and 'Tasteless.' When he finished a baccalaureate sermon to high school graduates the glee club sang 'Awake! Awake!'"

Excursion to Seattle, Saturday, June 17, Princess Marguerite.

### Mellon's Income Tax Investigated

Associated Press. Washington, June 16.—Attorney General Cummings yesterday said Department of Justice agents were in the Pittsburgh area investigating the income tax payments of Andrew Mellon, former Secretary of the Treasury, and W. L. Mellon, brother of the former official.

### ANTI-CANCER CAMPAIGN

Regina, June 16. (Canadian Press).—An educational campaign in the interests of early diagnosis in all suspected cancer cases will be launched in Saskatchewan with the opening of a joint convention of the Saskatchewan Medical Association and the Saskatchewan Cancer Commission late in August, according to an announcement.

### TWIN CALVES

Apton, Ill., June 16 (Associated Press).—H. M. Johnson's cow, "Ossie," is a mother for the fifth time within a year. She gave birth to triplets last July. Now she is the mother of twins. The animal is eight years old.

### FARM PRICES IN U.S. RISING

Associated Press. Washington, June 16.—Average prices paid United States farmers have increased twenty-five per cent, since the low point reached in February. The Bureau of Agricultural Economics said the average prices had increased since mid-May, when they moved up seventeen per cent, over averages on April 15.

### GOLD IN CLOTHES

Bend, Ore., June 16 (Associated Press).—"That's gold in them thar shirts," observed French Butler, local laundryman, as he examined freshly washed garments. Bend gets its water from the south fork of Tumalo Creek, scene of gold mining operations. Fine flakes of gold were in the laundry water.

## MORGAN PROFITS KEPT SECRET

Partners Do Not Know How Much Each Makes; His Share 50 Per Cent

By RODNEY DUTCHER. Washington, June 16.—The one thing J. P. Morgan was most anxious not to reveal publicly was the partnership agreements of his firm. The Morgan partners, except for Morgan himself, have always been ignorant as to the size of the split in the profits apportioned to each other. Only Morgan knows that. Both he and his father, J. Pierpont, maintained the policy of secrecy. Each new partner has always had to promise not to disclose his agreement with any of the others and has been made to realize that if he did he would be kicked out. Thus an element of discussion and jealousy has been carefully avoided.

The partners are essentially Morgan's employees. It has been reported but never confirmed that Morgan himself took 50 per cent of the profits. At any rate, new partners, who do not have to put money into the firm, are promised certain percentages which may run as low as one or two per cent.

Partners Run Business. Losses are also apportioned on the same percentage and charged off against profit shares. Later there have not been any profits, but Morgan partners are still millionaires and before the depression it was commonly believed in Wall Street that a Morgan partnership was worth at least a million dollars a year.

Wall Street men here during the Senate inquiry were sure nothing very important would happen to the Morgan partners. They believed it not unlikely that Morgan might before long go to live in England. He likes it there. His partners have been running the business for him with authority more and more concentrated in George Whitney and somewhat less in Thomas W. Lamont.

Julius Spencer Morgan, his son, might move to England, too. He prefers boating to banking. Henry Sturgis Morgan, the other son among the partners, is more like his grandfather and probably will take over his father's position as head of the firm.

The Morgan partners are always in close contact. After their morning conference they all sit in the same room—including Morgan himself when he's there—at closely spaced roll-top desks.

"Come on in with the goldfish," a recent visitor was told as he was led into that room.

\$2,500 A DAY. The fee John W. Davis receives for representing the Morgan firm during the investigation presumably is prodigious. Last time John was down here he collected \$2,500 a day for five weeks and three days, representing a corporation in a big tax case.

Ferdinand Pecora, the committee counsel who has made his sensational disclosures despite bitter opposition of some committee members, is paid \$255 a month.

### DAVIS HAS PRIVILEGES

Davis is allowed more privileges of interruption and speechmaking than any other private lawyer who ever appeared before a committee in such a capacity. Presumably this is because he is a former Democratic presidential candidate and most of the committee members are Democrats.

### MORGAN'S HAT

Morgan tossed his panama hat into person on one of the committee members. "Here, Tommy," said J. P., handing the crushed hat to Partner Thomas W. Lamont, "hold on to my hat."

(Copyright 1933)

## CITY BALKS AT TELEPHONE BILL

Portland, Ore., June 16.—The city of Portland yesterday decided not to pay its telephone bill until the telephone company turns over the 5 per cent gross revenue tax recently imposed by the city.

An ordinance to this effect was adopted by the council. The city recently levied the 5 per cent tax against utilities operating here without a franchise. The Pacific Telephone and Telegraph company appealed to the federal court for a restraining order and the case is still on the court docket.

## Shorter Working Week Predicted

Philadelphia, June 16.—Predictions United States industry would be held to a thirty-six-hour maximum working week, and that the minimum wages would be established, by reference to 1926 wages as a base, were made to-day by Arthur Hays Sulzberger, president of the Industrial Relations Councilors of New York, in a discussion of the industrial control bill.

In an address before the Philadelphia Personnel Association, Young stated that already 300 trade organizations had applied to Washington for permission to write fair competitive codes.

### RABBIT'S FOOT IN LETTER

Charleston, W. Va., June 16 (Associated Press).—The left hind foot of a rabbit fell from a letter opened in the governor's office here. It was sent by a convict in the penitentiary with his plea for a parole.

## Acids In Stomach Cause Indigestion

Create Sourness, Gas and Pain. How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows as "acid stomach."

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get—free from any druggist—Sour Stomach Magnesia and take a teaspoonful in water, right after eating. This sweetens the stomach, prevents the formation of excess acid, and there is no sourness, gas or pain. Sour Stomach Magnesia (in powder form—never liquid or milk) is harmless, inexpensive, and is a fine remedy for acid stomach. It is used by thousands of people who enjoy their meals with no fear of indigestion. (Adv.)

## HIS RISE IN RUSSIA WATCHED

SHAW SCORES CONFEREES

Sees in London "Assemblage of Gentlemen" Who Appear Economically Ignorant

Associated Press. London, June 16.—George Bernard Shaw, who has been exceptionally quiet—Shaw—since he returned from his world tour on the Canadian steamship Empress of Britain, gave voice yesterday to an opinion on the World Economic Conference.

"This week there is the World Economic Conference, consisting of an assemblage of gentlemen, not one of whom appears to know anything whatever about economics, even of the most elementary kind," Shaw said.

"When you examine their qualifications you will find they are all gentlemen who have made a deplorable and hopeless mess of national affairs in their own countries and have come to the Geographical Museum—a museum of fossils—in the hope that since they cannot get their own countries out of the mess, other countries may do so."

"In three or four days they have broken down almost hopelessly and the more busy of them are going home."

"Some day we must take things out of their hands and try to save civilization."

The Shavian barbs came just as the conference reported progress with the clearing of war debt, wrangling and success of currency stabilization and other monetary moves in sight.

## SESSION ENDS AT WASHINGTON

U.S. Congress Adjourns After Passing Compromise Veterans' Payment Bill

Associated Press. Washington, June 16.—The United States Senate early to-day adopted President Roosevelt's compromise veterans' proposal, paving the way for a sine die adjournment of Congress.

By forty-five to thirty-six, the Senate adopted a conference report that its representatives on a conference delegation had agreed on several hours before.

Long hours of debate had preceded the vote, during which senator after senator had either denounced the conferees for yielding to the passion of the hour, or praised the compromise as the best solution that could be worked out for a difficult situation.

The question at stake in the dispute was whether veterans should be allowed more liberal compensation than President Roosevelt had provided under the regulations he had issued under the economy orders.

The work of the extra session had been cleared up while the argument over veterans' payments raged. Several over veterans' payments raged. Several over veterans' payments raged. Several over veterans' payments raged.

The House of Representatives adjourned sine die at 1:21 a.m. E.S.T. nine minutes after the Senate had taken similar action.

### BIG MONEY VOTE

During the last days of the session Congress appropriated \$3,600,000,000 for the President to carry forward his emergency reconstruction programme for the United States. Without any more debate than is sometimes necessary to pass a bridge authorization bill, the House adopted the measure.

The House of Representatives adjourned sine die at 1:21 a.m. E.S.T. nine minutes after the Senate had taken similar action.

### GREAT POWERS GIVEN

During the session just ended every major request made by the President, some for greater power than ever given an executive of the United States in peace time, was granted.

Congress struck almost exclusively to the President's own programme for control of the country's industrial and agricultural output. The Senate and Representatives left in the hands of the President and his cabinet power to manage the currency and through the Industrial Control Act to bring pressure to bear fixing the hours of labor.

The brief session witnessed momentous and startling developments. The United States went off the gold standard, the beginning of the end of prohibition was seen in passage of a bill permitting sale of beer; the Economy Act was passed cutting veterans' compensation by \$300,000,000 and pay of government workers by \$125,000,000.

Responsibility of the federal government for unemployed was acknowledged by passage of a measure voting \$400,000,000 for direct relief grants to FARM MEASURES.

For the farmers, Congress gave the Secretary of Agriculture unprecedented power to raise farm prices and provided \$2,000,000,000 to refinance farm mortgages. Secretary Henry A. Wallace was given wide liberty to raise the prices of wheat and other farm commodities by leasing land and taking it out of production or by a process tax.

Turning its attention to banking, a matter sharply brought to its attention by general closure of the banks during the first hours of Mr. Roosevelt's tenure of office, Congress passed a Securities Act providing for protection for the buyers of stocks and bonds through publicity on issues offered. It permitted the old tag, "Let the buyer beware," to stand, but added "Let the seller also beware." Heavy penalties were set for misrepresentation.

Congress also passed the Glass-Steagall banking bill looking toward a unified national banking system and insuring certain classes of deposits.

The railroads were touched on by passage of a bill enabling them to remedy their troubles through a federal co-ordinator.

### H. M. HEWITT DIES

Detroit, June 16 (Associated Press).—Harry M. Hewitt, sixty-two, a pioneer in automobile manufacturing and former president of the old Paige-Detroit Motor Car Co., died suddenly at his home Thursday. His death was attributed to a heart attack.

Local Council of Women.—The meeting of the Local Council of Women, Minimum Wage Board meetings, will be held on Monday afternoon at 2:30 o'clock at the Y.W.C.A. Mrs. C. C. Spofford will preside. Mrs. Lewellyn will present her report of the National Council meetings at Calgary, and Mrs. Bertha Parsons will report on the Provincial Council meeting in Vancouver. All members are urged to attend.

Oaklands School Picnic.—The children of Oaklands School will hold a picnic at the Willows Beach tomorrow afternoon at 2 o'clock. Races and games are being arranged; there will be ice cream provided for the children and hot water for the adults.

## SHAW SCORES CONFEREES

Sees in London "Assemblage of Gentlemen" Who Appear Economically Ignorant

Busier of London Delegates Already Going Home, According to Irish Writer

Associated Press. London, June 16.—George Bernard Shaw, who has been exceptionally quiet—Shaw—since he returned from his world tour on the Canadian steamship Empress of Britain, gave voice yesterday to an opinion on the World Economic Conference.

"This week there is the World Economic Conference, consisting of an assemblage of gentlemen, not one of whom appears to know anything whatever about economics, even of the most elementary kind," Shaw said.

## EMIGRATION CAN NOT BE OVERLOOKED AS PART OF THE WORLD PROBLEM

Dr. William Ralph Inge, the "Gloomy Dean" of London's St. Paul's, has been directing his attention to emigration. Speaking at the London School of Economics, he emphasized the seriousness for Europe of the restriction of emigration. He saw in it one of the causes of the rapid decline in the birth-rate. He also saw it as a mistake for the countries imposing the prohibition, chiefly those countries embracing vast unsettled spaces. And, as for his own race, he said, "as a patriotic Englishman, I do not want fewer Englishmen in the world."

Although emigration is not down on the agenda of the World Economic Conference now in session in London, the problem of the pressure of populations and the possibility of relieving that pressure by freedom of movement is fundamental to the economic problems there being considered. For, of late years, movement of population between countries, which under natural conditions responds to aid in adjusting economic pressure as between various areas of the earth, has been subjected to the same confining restrictions that have blighted trade. Emigration from the old countries and immigration into the new had long been a factor in solving economic problems, and the halting of the great waves of population movement sorely puzzled economists. "New" countries have sought to hold their opportunities in greater measure for their own people. They have protected them from outsiders coming in, just as manufacturers have achieved protection at home for their own products from those seeking to enter into competition with them.

Apart from ethnic considerations, then, the question of emigration is as much a part of the broad economic problem as the items of currency stabilization, tariff barriers and prices. Before we surmount all our troubles, it may be necessary that the world be made less restricted for human beings, just as it is now believed vital that it be made less restricted for trade.

## A GERMAN PRO-NAZI DAILY GETS SUSPENSION

As one of the British newspapers barred from Germany, The Manchester Guardian notes with interest that the "Deutsche Allgemeine Zeitung" has been suspended for three months for publishing an article in which it criticized the Nazi government's policy towards Austria. If ever a paper had deserved the thanks of an administration, the well-known Manchester daily recalls, it was the "D.A.Z." Under the Brüning ministry it steadily denounced all efforts to suppress the Nazi movement. Under the Chancellorships of Herr von Papen and General von Schleicher it constantly maintained that it was dangerous as well as wrong to keep the largest party in the country out of office.

When President von Hindenburg nominated Herr Hitler as his Chancellor, The Guardian proceeds, it welcomed the appointment as the realization of its aim in a reunion of the "national forces of the nation." This stubborn advocate of national "concentration" is not a party organ of Herr Hugenberg. That gave its arguments the greater force among the nationally-minded bourgeoisie. Its oft-repeated thesis that the Nazi movement must be "canalized" by office weighed heavily with those about the President. It played a part which it is difficult to estimate in smoothing Hitler's path to power. But victory's fruits have tasted bitter for the "D.A.Z." The big industrialists and agrarians whom it represents have seen their fellows sent to prison on corruption charges; their businesses are threatened by Commissioners, their land by settlement schemes. The Guardian then concludes:

"The Nationalist or non-party ministers who still remain within the cabinet are losing influence daily on internal policy. This was not what the 'D.A.Z.' had hoped for. Presuming on its record and its close connection with Von Papen, it has allowed itself to criticize what it could not prevent. Now it is silenced by the very law which it approved when it was used against the Socialist or Catholic or liberal press. Its fate is both a moral story and a portent. The junior partners in the government coalition have fallen low indeed when they allow this blow to fall upon their friend."

## ANOTHER INVENTION FOR MORE COSTLY WARS

While the Disarmament Conference at Geneva continues to meet and adjourn and meet again without very much to show for its labors, as the representatives of more than sixty nations converge on London, hopeful of bringing about an economic and political peace, Science Service, a Washington publication, tells us that bullets, speeding a mile a second, able at moderate ranges to drive through the tough steel armor-plates of tanks, can be fired from a new type of rifle invented by Mr. H. Gerlich, an American-born German citizen now resident in England. Then we read:

"The terrific velocity of 5,000 feet a second, nearly double that of standard army rifles, gives the new weapon several advantages. It naturally flattens the line of flight or trajectory considerably, so that the soldier using it need not trouble himself so much about having the right elevation. It shortens the time of flight from rifle to target, a

highly important matter for anti-aircraft machine-guns. Finally, it enables the small-caliber bullet to drive straight through tank armor, even without the advantage of special armor-piercing devices; for at such velocities even soft projectiles have no time to "upset" on striking a hard target—they act like the straws that get driven through boards in a tornado.

"All these advantages must of course be purchased at a price. The rifle barrel, with its somewhat complicated bore, is more difficult to make, and more expensive. The ammunition is considerably costlier also, and its greater bulk in transportation is something of a military disadvantage. The recoil is heavier. Whether the rifle will wear out faster under firing conditions is not yet determined. Nevertheless, if military authorities see sufficient tactical advantages in the new weapon, its final adoption may be expected."

It will be noted that the rifle barrel is more difficult and more expensive to make than that of standard patterns now in use. That will be good news for the armament manufacturers. Bigger and costlier wars is their watchword.

## SIGNS OF BUSINESS RECOVERY SEEN IN RECENT DEVELOPMENTS

The detached philosopher, if there be any such person nowadays able to preserve an aloof serenity in the midst of a bedeviled world, says Business Week of New York, must be interested and faintly amused to observe how quickly the spirit of the business world changes with the changing weather. Fortune and misfortune come and go. Economic patterns are broken and remade. Laws change. But human nature is unchanging.

Business has been terribly sick—which probably is no news to any reader—but now is on the mend, we read further. Steel production figures, carloadings, volume of check payments, automobile output, all are good enough indices in their way. But the really infallible sign that times are getting better is that the business man is beginning to be critical of the doctor, the medicine, the diet, and the long course of treatment that stretches ahead of him. Business Week speaks thus hopefully:

"This is healthy. It is good to see the patient getting well enough to begin to find fault with the hospital food. Every doctor watches for that stage of behavior as marking an important milestone on the road to recovery—but he does not often fire the cook, or change the diet. Time was, and only a few short weeks ago, when sick business accepted passively any remedy that was offered. That day has passed."

## HE WROTE THE AGELESS SONG OF HOME, BUT NEVER HAD ONE

One hundred and ten years ago a song was sung at Covent Garden, London, that attained instantaneous success. It was "Home, Sweet Home." Its publishers made a fortune, and it has become a part of the folk music of the English-speaking world. London during this month has been noting the anniversary.

For the author, however, the song did not bring wealth or happiness. He was James Howard Payne, by turns an actor, a manager and a playwright. The loneliness of the roving life was leading when he wrote "There's no place like home," inspired him to his supreme moment, voicing so complete an expression of a sentiment common to all human beings, that his simple song has become ageless. He longed for a home of his own and fell in love with a Georgia girl, Mary Harden, but she rejected him. Heartbroken, he sent her one last tribute—the manuscript of his famous song. Then he continued his wanderings, to die in Africa at the age of sixty, lonely and without a home.

His one song was all his life yielded. But if, as Lowell once said, "There is no work of genius which has not been the delight of mankind, no word of genius to which the human heart and soul have not, sooner or later, responded," then Payne has the claim to genius. But it is another of the ironies of the fates, as Disraeli once said, that "fortune has rarely condescended to be the companion of genius."

## WHAT OTHER PAPERS SAY

MR. STEVENS AND BRITISH COLUMBIA  
 The Lethbridge Herald

If we estimate Hon. Harry Stevens correctly he is not going to "jump out of the frying pan into the fire"; in other words, he is not going to abandon a cabinet position with a government that may not last very long, but still has a year or two of life before it.

Harry Stevens is one of the ablest Conservatives in Canada, but that he has the power of cementing the breaches in the provincial party in British Columbia is doubtful. Mr. Bowser has committed himself to non-partisan government in British Columbia; he can't abandon very readily all the arguments he has put up for the discarding of party politics, and throw himself into the arms of Mr. Stevens and partyism. He has crossed the Rubicon: to turn back would destroy him in the estimation of British Columbians to whom he has been denouncing party politics as a curse. No matter how willing Dr. Tolmie might be to line up behind Mr. Stevens, the latter gentleman is too wise a politician to accept a leadership that would not have Mr. Bowser and his group of Conservatives serving under him as well.

EUROPE FIRST  
 The Boston Globe

If Europe can be kept right-side-up, and the affairs of the western nations ironed out, the Far Eastern question will settle itself. Unity of the white races is a prime requisite to a reasonable adjustment with the Asiatic pressure. If no unity can be attained, then the United States will be obliged to face the Asiatic problem single-handed. The first question to decide is whether one quarter of the world's people, those residing in Europe and North America, can stick together and settle their differences. If they cannot we shall have to settle our own affairs alone.

## A THOUGHT

Blessed are the merciful: for they shall obtain mercy.—St. Matthew v. 7.  
 Nothing humbles and breaks the heart of a sinner like mercy and love.—Thomas Brooks.

## Loose Ends

We come down to the practical side of politics—We resolve to nominate a candidate on the union basis—Mr. Beak goes forth to collect funds on a highly moral plane—the grocery interests co-operate the beer interests are stubborn and we abandon the sandwiches.

By H. B. W.

## UNION BASIS

AS THE next step in the salvation of the country, the Loyal Conservative, Liberal, Radical, Labor, Left Right and Centre Party, more familiarly known as the Blossom Movement, is going to hold a convention. Our convention, of course, is not going to be one of those steam-roller party conventions where everything is arranged in advance. Our convention is to represent the whole people regardless of party and on a real union basis. The only difficulty, as Colonel Blossom pointed out, is that so many other parties are holding conventions of exactly the same kind, so many other parties represent the whole body of voters on a union basis, that we sometime wonder whether there will be enough voters to go around. What we evidently need in this country is more voters.

Of course, one has to be practical and realistic about such things. With our convention to represent all the people, at the same time we are going to choose our delegates with care. If we didn't, of course, they might nominate someone we didn't want.

"The way to do it," said Mr. Beak, who has been studying the technique of practical politics, as developed by the ablest experts in British Columbia, "the way to do it, is to name your delegates privately, while no one ain't looking." Then hold your convention and nominate the man you want. Then announce that he was nominated on a union basis and that every party was given the chance to take part in the convention.

"But there is always the danger that one of the other parties might take part and nominate the wrong man," said Colonel Blossom.

"Yes, they might go and nominate a Liberal on us," Mr. Whiffleton protested.

"Or a beastly radical," said the Colonel.

"Or a Tory," said Mrs. Glumby. Mr. Beak assured her that, if we followed the technique of practical politics as developed with complete success in British Columbia, there would be no danger of any such disaster.

"There ain't no chance of any other party coming to the convention, even if they was asked before," he said. "At these 'ere other union conventions they've bin holdin' lately no other party ever turned up. But to make sure of it we won't invite 'em until after our delegates 'as been chosen. Then we'll just announce that the convention represents all parties, and our candidate stands for everybody, regardless of party."

FINANCE  
 THIS ARRANGEMENT seemed safe enough, and Mr. Beak assured us that it was the very best modern practice. So we came then to the matter of financing the convention. Even a spontaneous movement of the people like ours, we found, required financing. The people move spontaneously in a great movement of this sort, we have discovered, but not in the direction of their pocketbooks. And there is hall rent to pay, and the cost of printing leaflets, and Mr. Beak thought we should hire a singer or two and perhaps provide coffee and sandwiches so as to attract people to the convention. On second thoughts we abandoned the coffee and sandwiches, lest they attract supporters of the old-line parties who might not vote for the candidate we wanted.

Mr. Beak was appointed as our campaign manager. We collected funds, if he collected funds for our movement as energetically as he collected his egg bills every month, we should have no difficulty about finance. But it was made clear that our great movement would never stoop to the campaign fund methods of the old parties, would never promise favors in return for funds, would never be corrupt and dominated by the Big Interests.

## PRINCIPLES

STILL, MR. BEAK found the collection of campaign funds on this basis rather difficult. For instance, Mr. Floggin, the grocer at the corner, said his principles prevented him from supporting our cause. He had been a Liberal all his life, he said, and he wouldn't go back on the principles of a lifetime. At the same time, he confessed, he had been disappointed to find, when the Liberals were in office, that he never got an order for groceries for any of the government institutions. Politics, he feared, were growing corrupt lately. Of course, if he was assured of some legitimate profit of this sort, he might feel more like putting his lifelong principles into actual practice. He might make a financial sacrifice and give a large contribution.

Mr. Beak could see no harm in promising that the Blossom Movement, if elected to office, would reward the public services of Mr. Floggin by purchasing groceries for the Doughbobs at Pier Island from Mr. Floggin. So Mr. Floggin actually handed over \$4 to Mr. Beak. In cash, mind you. The only drawback, Mr. Floggin said, was that the Doughbobs didn't seem to eat as many groceries as other people. Mr. Beak promised to make them work harder and eat more.

And Mr. Beak is a man of imagination. It occurred to him that since the Doughbobs had been taught to wear cloths on Pier Island, there would be a large new market for dry goods. He pointed this out casually to Mr. Bogg, who sells dry goods, and added that the Blossom Movement had declared itself in its great manifesto as determined, if elected, to stamp out

## Piles Go Quick

No Salves—No Cutting

Thousands who have itching, bleeding or protruding piles have not yet learned that quick and lasting relief can only be accomplished with an internal medicine. Neither salves nor suppositories remove the cause.

Bad circulation of blood in the lower bowel causes piles. The hemorrhoidal veins are flabby, the bowel walls weak—the parts almost dead. To get rid of piles an internal medicine must be used to stimulate the circulation, drive out the thick impure blood, heal and restore the affected parts.

Dr. J. S. Leonhardt, after years of study, found a real internal Pile remedy. He called his discovery HEM-ROID, and prescribed it for 1,000 patients with success in over 900 cases, and then decided every Pile sufferer, no matter how stubborn their case, might try his prescription with a money back guarantee. HEM-ROID tablets have such a wonderful record of success in this city that MacFarlane and Vancouver Drug Stores and all good druggists invite you to try HEM-ROID and guarantee money refunded if it does not end your Pile misery. (Adv.)

## Technocrat Frogs At London's Zoo

London.—In the absence of his assistant, the keeper of the reptile house at London Zoo received from Brazil a horned toad frog. While he was serving their antics his assistant was in and said:  
"Whom are you trying to fool with those toy frogs? Wind them up and see what they can do."  
The keeper pretended to do as requested and after a while the assistant asked:  
"No. They haven't yet made a mechanical frog that can deceive anyone."  
"Maybe you are right," said the keeper as he placed the frogs on the edge of the pool, into which they later came the reporters, to whom the keeper repeated the story and the from The Morning Post continued as follows:  
"The appearance of the frog makes seem too amusing to be real, since

his body, which is about seven inches long and five inches wide, looks as if it is made of India rubber, his coloring consists of bold patches of pink and green arranged in a rather futuristic pattern, while above each prominent eye he has a large grotesque horn.  
"But it is his behavior which makes him even more like a toy. In common with most giant frogs, this South American species inflates himself when angry, and if the newcomers to the zoo are lifted out of their cages and placed on the floor of the house they become infuriated.

## CHINESE INJURED IN BICYCLE CRASH

Lee Fat, Chinese, suffered a dislocated right hip and other abrasions when he lost control of his bicycle which he was riding west on Halliburton Road and fell over a ten-foot embankment and crashed into a fence yesterday afternoon.  
First aid was rendered the injured man by Chief Allan Rankin of Saanich, who later removed him to the Jubilee Hospital where he was attended by Dr. J. P. Vye.

## Langford

The monthly meeting of the Parent-Teacher Association was held Wednesday evening, H. Merry presiding. Mrs. R. M. Haggie read the financial statement. Thanks were passed to Mrs. R. Carlow for providing refreshments at the recent working bee to drill stumps in the school grounds. A social evening followed the business session. Progressive auction bridge and five hundred were played. Miss L. Peacey and E. F. Le Queune won the prizes for the highest bridge scores, while Mrs. R. Carlow obtained the potted begonias given by W. Savory for the best five hundred score.

The C.P.R. tennis team will be guests of the Langford Club on Saturday, June 17, at 2:30 in a league match. The school picnic will be held on Saturday, June 24 at the Ocean Beach Lagoon.

Mr. and Mrs. F. Gould have taken up residence in Mrs. S. Goucher's bungalow on Goldstream Road.

## SIDE GLANCES

By George Clark

Who switched my cigar while I was not?

## SOMEBODY SITS ON MORGAN'S HAT

Senate Investigation Running as "Greatest Show on Earth"

By JULIA BLANSHARD

New York, June 16.—Everybody who has carfare and spare time is running down to Washington for a day to take in what Washingtonians call The Greatest Show on Earth—meaning the Senate investigation of the House of Morgan.

The high spot the other day, from a human interest viewpoint, was the moment when J. P. Morgan discovered that somebody had sat on his new \$100 Panama hat. His smile faded. He looked the retrieved hat over, straightened out the crown and smoothed the brim, and then handed it to someone who started to put it down on another chair.

"Here," Morgan said, peremptorily, reaching for his hat, "I don't want that sat on again." Just then young Thomas Lamont, a Morgan partner, came in. "Hello, Tommy," Morgan greeted him. "Here, hold my hat, will you?" Lamont took the hat and proceeded to hold it, out of harm's way, during the entire session. The talk around both Washington and New York is that the list that really would make a sensation, if published, is that of the very prominent men who were offered special stock and accepted and then, when prices slumped and they hadn't yet paid, welched on their acceptance and let Morgan's firm stand the loss.

## MIXED PERSONALITIES

One of the most interesting spectacles in the Morgan investigation is the personal clash between Senators Fletcher and Glass. Together their ages total almost 150 years—Fletcher is seventy-five, Glass seventy-four. Fletcher's red nose gets almost purple whenever one of Senator Glass's sallies angers him. Glass, who made himself a master of finance by sheer hard work after he came to the Senate, is a tiny chunk of dynamite, bitter and fearless when aroused. . . . and careless of the future, since most of his political life is behind him.

## GARNER'S QUANDARY

Vice-president Garner has a decision to make every day of his life. It is: "What gavel am I going to use today?" More than 300 have been sent to him, from all over the United States and Canada, the majority from Texas. . . . In his office suite, he has several dozen, though he has sent the majority to Texas for a museum. . . . They are all sizes, all kinds. One, two feet long, is made from cactus, rattlesnake and Longhorn steer's horns and wood from trees in Garner's district. . . . A sleek, small one is made from part of the wood from the elm tree under which Gen. Sam Houston concluded a treaty with the Indians. . . . One has over fifty varieties of Texas trees inlaid in it. . . . Another has a handle of pecan wood from Garner's own grove. . . . One handsome ebony one was a gift from a colored women's organization.

The vice-president, in his office off the Senate, sits at his desk under a handsome chandelier that used to be in the east room of the White House—the chandelier under which Grover Cleveland was married. . . . He even has given up the movies. The last time he slipped into a film house for a quiet moment or two, with Mrs. Garner, the spotlight was turned on him, and he was asked to take a bow. . . . He stays home now.

## IDOLIZED IDAHOAN

Fighting Senator Borah now has a hideout, a private office, with no name on the door, a long distance from his office suite. . . . He's the Dean of the Senate now—has been there since 1908. . . . Every morning at 10:30 the Senator has his tall glass of butter-milk. . . . He's still the man in the Capitol whom most tourists want to see. . . . Also the man to whom everybody in trouble anywhere abroad, particularly in Russia, writes. . . . He has the most surprising hands in the world, for such a warrior. Artistic, painter or musician hands, in direct contrast to that rough-bewn head and face.

Some gasoline trucks have dragging chains to free the trucks from static electricity which collects on moving objects and objects subject to friction; the chains ground any electricity thus generated.

The first American-built ship to cross the Atlantic was a pinnacle built by a band of Huguenots at Port Royal in 1622, and in which they returned to France.

"George, what's the highest dive you've ever made?"  
—The Humorist, London.

## BRIGHT COLORS PROVE POPULAR

Gayer Shades Now in Vogue For Men's Suits; Better Spirit Reflected

Toronto, June 16.—Gone are the depression blues, dark browns, drab greys and all the mournful colors men have worn during the last four years. David Dunkelmann, president of Tip Top Tailors Limited, the largest individual made-to-measure men's tailoring house in the British Empire, made this observation to-day in announcing the greatest spring business in their history.

"We have had to place re-orders for new shipments of gay colors—the lighter, cheerier shades of cloth," stated Mr. Dunkelmann to-day. "It clearly reflects the better spirit which is showing itself everywhere. All the way from Victoria to Halifax, in Edmonton, Windsor, Toronto, Montreal and Saint John, our orders for spring clothes are the best we've ever had. We are employing 1,000 hands on full time. Our payroll for the first five months of 1933 amounted to \$500,000. . . . We are planning to keep business going ahead by increasing our newspaper advertising. We are convinced that better times will stay with us if we back up this improvement with spending money in our business and on our business. Newspaper advertising has done a real job for us and we are increasing our schedules."

The Druids regarded mistletoe as an antidote for all diseases.

## RED CROSS IS GIVEN PRAISE

Dr. C. Wace Commends Valuable Work of Canadian Institution

In connection with the Red Cross appeal, Dr. C. Wace, medical superintendent of the Victoria Hospital, says:

"I am very sorry indeed to hear that the Victoria branch of the Red Cross Society of Canada has under consideration the closing of the workshop for disabled ex-service men on Johnston Street, owing to lack of funds. 'I have been closely associated with this work since its commencement in April, 1921. Later in that year, while I was a medical officer in the Department of the Soldiers Civil Re-establishment in Victoria, with the approval of the director of medical services at Ottawa, I was sent to England, by the late Dr. J. Robertson, the chairman of the executive committee of the Canadian Red Cross Society, to study the problem of the care and employment of the disabled ex-service man. 'My reason for referring to this past history is two-fold. First, to show how the decision of the Victoria branch of the Red Cross to start the workshop for disabled men was the origin of similar institutions across Canada, and furthermore their action in so doing brought the whole question of the employment of the disabled ex-service man before the department primarily concerned at Ottawa. My second reason is to add such weight as I may to my opinion that the operation of this workshop is one of the wisest and most helpful undertakings that the society has ever handled. Surely it is the direct and logical continuation of the splendid work of the Red Cross during the war. It has saved many unemployable ex-servicemen, with moderate pensions, from lives of idleness with its resulting mental and physical degeneration. 'During the nine years that I was in close daily touch with returned men's problems, and especially those of the disabled men, I never felt a doubt as to the great value of the shop but often a regret that the Red Cross had not the funds to enlarge the sphere of its activities on these and similar lines. 'I do most sincerely hope that the appeal now being issued will meet with a generous response. It will be a sign that we have not forgotten the promises made in 1914 to those who went overseas.'"

## "That's RAYON!"

**BUT**  
 Built to Courtaulds Specifications

- The yarn is Courtaulds Viscose Rayon, the strongest and finest the industry knows—insuring a fabric which will wash perfectly, without special care and will not gather, pucker, frizzle or burn under the hot iron.
- The cloth is firmly and evenly knit with the full specified number of threads per inch.
- The garment is cut to specified measurements at every seam and correctly sized.
- Every detail is subject to constant check by an independent organization engaged especially for that purpose.

**"QUALITY CONTROLLED" RAYON Underwear for Men**

No wonder the trend is all to Rayon. Rayon is the fabric of today. Rayon is pleasant to even the most sensitive skin. "Quality Controlled" Rayon is better rayon. "Quality Controlled" Rayon Underwear for men looks better... feels better... fits better... wears better... and washes and irons better. It won't shrink, stretch or tear easily—wet or dry. It won't shrivel, pucker or burn under the hot iron.

Canada's leading manufacturers have agreed to use Courtaulds world-famous yarns for their better grades of men's underwear, and to manufacture the garments according to Courtaulds "Quality Controlled" specifications. Such garments are distinguished by the "Quality Controlled" label.

Courtaulds rayon yarns are used by manufacturers of high-grade rayon fabrics the world over.

Ask to see the label before you say, "Yes."

ENTIRELY A CANADIAN PRODUCT.

## HEADACHE AFTER HEADACHE

Now She's Free From Them

A woman writes: "I would like everyone who suffers from headaches to try Kruschen Salts. Before taking Kruschen I was hardly ever free from a headache. But since I have been taking it regularly I have hardly had a headache, for which I am very thankful, for headaches can make one feel quite ill. I have been taking that small dose of Kruschen every morning in a glass of warm water, before my breakfast, and I feel so well." (Mrs. A. E. D.)

Headaches can generally be traced to a disordered stomach and to the unsanitary retention in the system of the stagnating waste material which poisons the blood. Remove these poisons—prevent them forming again—and you'll never have to worry any more. And that is just how Kruschen Salts bring swift and lasting relief from headaches. Kruschen Salts aid Nature to cleanse your body completely of all clogging waste matter. Start on the "little daily dose" of Kruschen to-morrow. Then you will very soon have done with headaches. (Advt.)

adrian Red Cross Society, to study the problem of the care and employment of the disabled ex-service man. 'My reason for referring to this past history is two-fold. 'During the nine years that I was in close daily touch with returned men's problems, and especially those of the disabled men, I never felt a doubt as to the great value of the shop but often a regret that the Red Cross had not the funds to enlarge the sphere of its activities on these and similar lines. 'I do most sincerely hope that the appeal now being issued will meet with a generous response. It will be a sign that we have not forgotten the promises made in 1914 to those who went overseas.'"

## RELIEF MONEY IS OVER HALF SPENT

Cost to Saanich For Five Months Has Been \$30,000

Cost of providing relief to Saanich unemployed during the first five months of 1933 has been approximately \$69,398, of which \$36,000 has been paid by the municipality, it was reported to the council yesterday evening. The actual relief expenditure, exclusive of miscellaneous accounts, was \$54,898.40, the municipal proportion being \$14,004.20. This latter total consisted of the following amounts for respective months which were given towards providing for the accompanying number of persons receiving relief: January \$3,165.86 for 403 cases; February \$3,179.07 for 404 cases; March \$2,925.10 for 376 cases; April \$2,783.73 for 362 cases and May, \$2,540.50 for 330 cases. The council budgeted \$55,000 for relief this year and consequently has approximately \$25,000 left for the remainder of the year. The ward expenditures for miscellaneous relief costs to May 31, follows: Ward One \$1,384.57; Ward Two, \$1,307.57; Ward Three \$1,270.72; Ward Four, \$1,659.95; Ward Five, \$1,639.07; Ward Six, \$1,062.27; Ward Seven, \$2,024.80, and parks \$83.10.

## Admiral Napier Visits Brother

British Naval Officer Sees Australia and Canada After Many Years

Was Here Thirty-six Years Ago; Visiting His Kinsman at Duncan

Visiting Australia after an absence of a quarter of a century, Admiral Charles Lionel Napier, C.B., R.N., who arrived in Victoria yesterday aboard the liner Monowai from Sydney found things vastly changed in the country he knew when he served on the Australian station as captain on H.M.S. Eurayulus. "My wife and I have been making a world tour, and in visiting Australia many happy memories were revived of my old associations while serving with the Eurayulus in those waters," said Admiral Napier following his arrival. "Australia has seen great development in the intervening years. They have been badly hit by the world slump, but they have got over the worst of it, and there is a definite turn for the better with the prospect of continuance of improved conditions throughout the Commonwealth. "We are now going to see something of Canada, which has also developed vastly since I passed through here thirty-six years ago to join H.M.S. Narcissus in the Orient. After visiting my brother, Herbert, at Duncan, we shall return to Victoria and spend some time here before continuing our trip home." The admiral was met at the wharf yesterday evening by Lieut. Commander H. R. Tingley, R.C.N. Following his return from Duncan the admiral, who left this morning for up-island, will inspect the Canadian naval dockyard at Esquimalt.

return to Victoria and spend some time here before continuing our trip home." The admiral was met at the wharf yesterday evening by Lieut. Commander H. R. Tingley, R.C.N. Following his return from Duncan the admiral, who left this morning for up-island, will inspect the Canadian naval dockyard at Esquimalt.

**ON GORDON EXPEDITION**  
 Admiral Napier has had a notable career in the British navy. He served with the Scudra expedition, which was sent to the relief of General Gordon at Khartoum. He commenced as a cadet in 1875, and saw rapid promotion in the service. He held the rank of commander in 1896, and captain six years later. He served as captain on H.M.S. Eurayulus on the Australian station in 1904, and was identified with the naval establishments at Sydney in 1907.

He served in 1909 on H.M.S. Inflexible, the vessel which made naval history with H.M.S. Invincible when the latter was wrecked in the Falkland Islands. He was placed on the retired list after the close of the World War.

## BAD WEATHER DELAYS CLIMBERS

Associated Press  
 False Pass, Alaska, June 16.—After battling Bering Sea mists and constant bad weather at the snow line on Shishaldin volcano for over two weeks, Rev. Father Bernard Hubbard of Santa Clara University and his party of men and dogs have returned to their base at the Harris cannery here to obtain fresh food supplies for a second attempt to scale the peak. After being quiet all winter, Shishaldin is at present increasing its activity constantly. Father Hubbard, known as the "Glacier Priest," because of his years of research among the peak Alaska, left Seattle May 10 for his trip to the north. At the end of May officials at Santa Clara University received word that the expedition had been completed for a new attempt to a Shishaldin, 9,387-foot high volcano on Unimak Island of the eastern Aleutians. He expected to return to the United States in August. One hundred and ninety-six families representing 832 persons, were assisting by the Saanich Welfare Association during May, according to report submitted yesterday evening. The families aided in the wards were: Ward One, nine; Ward Two, four; Ward Three, nine; Ward Four, seven; Ward Seven, eighty-four.

**ENO'S FRUIT SAL**  
 bilious? Don't delay! Relieve congested foodways of poisonous waste. Take Eno now—and every morning.

## "The Sealed Trunk"

By HENRY KITCHELL WEBSTER

—Copyright—

"It's funny," Martin commented easily. "I don't usually come home at this time. It's after six. You don't suppose anything's happened to her, do you?"

"Oh, don't be an old hen!" Babe admonished him. "What could have happened to her? All the same, if she could see she was as uneasy as we were. They wasted no time about paying their bill and getting a taxi."

The studio was dark when Babe unlocked the door, and their calls evoked no response.

"Something has happened to her," Martin said, with sober conviction. "The telephone bell rang just then and enabled Babe to say as she darted across the room to answer it. 'Bully, there she is now. Turn on the light, will you? It's right by the door.' 'Hello!' he heard Babe saying as she fumbled for the switch. 'Is that you, Red? Well, what's the matter with your voice? I can't hear you. Yes, Martin's right here. Do you want to talk to him?'

Before he could take the receiver from Babe's hand he heard her say, 'Red, what is it?' And by the time he had crowded into her place, the thread of communication had been broken.

"Number, please!" the operator said when he rattled the hook. She couldn't tell where the call they had lost had come from.

#### CHAPTER VIII

It had been the mere momentum of pursuit rather than any conscious adopted plan that had caused Rhoda to dial her taxi and follow Claire Cleveland into the Worcester hotel. She wasn't more than a minute or two behind her and what she expected anything had been to see Claire at the desk inquiring for Mr. Forster.

Claire was nowhere to be seen. Very likely she hadn't had to ask at the desk but had ridden straight up in one of the elevators. Having lost contact with her quarry, Rhoda sat down in one of the massive armchairs in the lobby to think things out a little.

What ground had she for assuming that Claire had come here to see Forster? Well, it was quite reasonable. Out of the whole issue of lies Claire had told at lunch the one emergent truth had been the genuineness of her hatred for Forster and her belief that he hated her.

He might be Rhoda perceived, was as unpleasant a person as Claire had painted him, or he might be perfectly correct, a potential friend. The advertisement in the paper, that Rhoda would learn something to her advantage by applying to him, might be true. It couldn't be dangerous—no physical danger—if he couldn't even walk without the aid of two canes.

And if he was the man who had brought her and Babe down-town this morning, as she didn't doubt he was, he knew where she worked if not where she lived; and this, unless she could avoid him, unless she moved out of the studio and got a new job, if she was going to see him, what better strategic opportunity could she have for the visit than while Claire was there quarreling with him?

She started across the lobby toward the desk to ask Mr. C. J. Forster, but she didn't actually go up to Mr. Forster's apartment unless she wanted to. An inquiry at the desk wouldn't commit her to anything. But in the stranger's way, it did.

The clerk didn't directly answer her question, whether Mr. C. J. Forster lived there or not. He asked for her name instead. But the moment she gave it (as Rhoda White), his manner became alert and deferential.

"Oh, yes, Miss White," he said, and nodded to a bell-boy.

His manner, she thought, strangely suggested that he knew all about her and had been eagerly awaiting her arrival, both manifest impossibilities, that she felt backing away and saying, "I'm all a mistake." She was faintly amused and faintly frightened, but more than either she was curious to follow the adventure through and see what happened. The clerk had probably mixed her up with some one else. Anyhow, Mr. Forster must be a pretty important person in this hotel to evoke a seal like that, even though it was mistaken.

The bell-boy, on getting instructions, conducted her over to the elevators. "Right up," he said to the elevator boy, "all the way." The bell-boy followed her in and the car ran all the way to the twenty-fourth floor, regardless of signals.

In the mixture of Rhoda's emotions the element of fear gained a little at the expense of amusement. She began to feel that she'd started something she might not be able to stop.

The twenty-fourth floor appeared to be the topmost. There were red "Down" lights only over all the back doors, as if it didn't appear to be a regular hotel floor, either at least not the whole of it, for the broad corridor was cut off by a transverse passage in an office building. The bell-boy went over and pressed the bell button beside a solid door which had no legend nor numerals whatever upon its panel. There was no immediate response.

"Where are you taking me?" Rhoda asked, trying to hide her nervousness. He seemed surprised at the question. "Mr. Forster doesn't come down to his office much," he said. "He's got a regular house upon the roof of the hotel. This little private elevator takes you up to it. It'll be down in a minute."

"Heavens!" Rhoda exclaimed. "Does he own the hotel?"

"And how!" said the boy.

The door opened upon a small private elevator with a big man in it. He was dressed not in the hotel livery but in a blue serge suit with a double-breasted coat. Rhoda stared. Where had she seen him before?

"Miss White," the bell-boy said, "it's all right, miss. The man who's waiting for you is Mr. Forster. He's waiting for you at the eight o'clock. Mr. Forster's expecting you."

Reluctantly, beginning now to tremble a little, she stepped into the elevator, denouncing to herself as she did so the impulse to declare that it was all a mistake, and to run. There wasn't anywhere to run to, for one thing. But she might have tried it anyhow if she'd remembered two seconds sooner who the man in blue serge was. He was the man who'd come to their studio last night pretending to be a name-taker for the new city directory.

His manner remained perfectly civil as he led her out of the elevator and ushered her across a broad hall into a room, where he asked her if she

would mind waiting a few minutes. Mr. Forster, he said, would see her directly. If the jaws of some trap were closing upon her, she wasn't meant to be aware of them yet.

He closed after him as he went out the door they had come in by, and she noted in her first panicky glance about the room that its other doors were closed also. There was complete silence.

She checked her impulse to flight with the reflection that it wouldn't do any good. If they wanted her they had her. How had it happened? How could they have known she'd come here when she had only turned in the hotel on the spur of the moment, in pursuit of Claire. She'd never even heard of C. J. Forster until Martin had told her about him last night. Her notion that the hotel clerk and all the rest of them had mistaken her for some one else would no longer serve as an explanation. The man in the blue serge suit must have recognized her, though his stiff face had not betrayed the fact. It had been as Mr. Forster's agent that he had come to the studio last night. What was the strength of his report that Mr. Forster himself in his limousine had followed her and Babe this morning? If he had been so sure of her, why hadn't he accepted, and incidentally, round out where they worked. That seemed to hang together.

It was a queer sort of room, she was in—large, well proportioned, with a high barrel-vaulted ceiling, beautifully but rather heterogeneously furnished, partly as a drawing-room and partly as an office. There was a large crackle-stove, a bare except for a bronze bust of Napoleon, in the middle of it. What was it that made the place seem so queer? Why, there were the two windows in the whole room? The early twilight of a cloudy autumn afternoon was already closing in, which might be why she hadn't noticed when she first came in. But was that the only reason? Probably not. There were pictures all around the walls, big and small, and they were regularly spaced, all of them heavily framed and in shadow boxes with a special light over each, and they broke up the walls more effectively than anything else.

The biggest of them all was above the fireplace down at the end of the room. It was a landscape with Rhoda decided to look at it if it had been from stage scenery rather than from nature itself. The thing that held Rhoda's interest down at that end of the room was the view that she saw when she first came in. But was that the only reason? Probably not. There were pictures all around the walls, big and small, and they were regularly spaced, all of them heavily framed and in shadow boxes with a special light over each, and they broke up the walls more effectively than anything else.

There was a large crackle-stove, a bare except for a bronze bust of Napoleon, in the middle of it. What was it that made the place seem so queer? Why, there were the two windows in the whole room? The early twilight of a cloudy autumn afternoon was already closing in, which might be why she hadn't noticed when she first came in. But was that the only reason? Probably not. There were pictures all around the walls, big and small, and they were regularly spaced, all of them heavily framed and in shadow boxes with a special light over each, and they broke up the walls more effectively than anything else.

The biggest of them all was above the fireplace down at the end of the room. It was a landscape with Rhoda decided to look at it if it had been from stage scenery rather than from nature itself. The thing that held Rhoda's interest down at that end of the room was the view that she saw when she first came in. But was that the only reason? Probably not. There were pictures all around the walls, big and small, and they were regularly spaced, all of them heavily framed and in shadow boxes with a special light over each, and they broke up the walls more effectively than anything else.

It was a queer sort of room, she was in—large, well proportioned, with a high barrel-vaulted ceiling, beautifully but rather heterogeneously furnished, partly as a drawing-room and partly as an office. There was a large crackle-stove, a bare except for a bronze bust of Napoleon, in the middle of it. What was it that made the place seem so queer? Why, there were the two windows in the whole room? The early twilight of a cloudy autumn afternoon was already closing in, which might be why she hadn't noticed when she first came in. But was that the only reason? Probably not. There were pictures all around the walls, big and small, and they were regularly spaced, all of them heavily framed and in shadow boxes with a special light over each, and they broke up the walls more effectively than anything else.

## Uncle Wiggily's Gold Mine

By HOWARD R. GARIS

One day, when Uncle Wiggily was hopping along to school with Baby Bunty, the orphan rabbit, the old rabbit gentleman said:

"Would you like a lollypop, Bunty?"

"Oh, yes, very much, Uncle Wig."

Bunty answered, using all the baby talk she was permitted. "But you have a lollypop, have you?"

"Got right smack in my pocket," Uncle Wiggily answered, twinkling his pink nose. "I don't carry lollypops in my pocket—they're so sticky you see, Bunty."

"Yes, they are sticky, Uncle Wig," spoke the little orphan rabbit. "I've seen you with a lollypop in your pocket how are you going to give me one?"

"I'll get you one in the first candy store we see," promised the jolly rabbit gentleman. "I have money with which to buy lollypops," and Mr. Longears patted his paw on his pocket making a musical, tinkling sound.

"Money for lollypops," laughed Bunty. "How nice."

Then she hopped along with Uncle Wiggily to the Hollow Stump School where the Lady Mouse Teacher taught the animal children their lessons. Not far from school, Uncle Wiggily himself was just walking with Bunty to keep her company.

Soon they reached the candy store where Uncle Wiggily took Bunty in and the little orphan rabbit the most wonderful rose flavored lollypop.

"Uncle Wig," spoke Bunty when they came out of the store.

"What is it?" he asked.

"Whub du dub der bunty?" was what Bunty seemed to say.

"If you would take that lollypop out of your mouth you could speak more plainly and I could understand you," said Uncle Wiggily.

So Bunty took the lollypop out of her mouth and asked:

"Where do you get your money, Uncle Wig?"

"Oh, I get it out of a gold mine," said the rabbit gentleman, with a laugh. He only spoke about the gold mine for fun and he did not think Bunty would believe him, for he was only fooling. But Bunty thought Mr. Longears was speaking in earnest and when he said he got his money for lollypops out of a gold mine, why, the little orphan rabbit believed him.

"A mine is a hole in the ground," answered Mr. Longears, "and you get gold by digging for it." This was quite true as everybody knows.

"I wish I had a gold mine," spoke Bunty.

"I wish you did," said Uncle Wiggily who was wondering what kind of an adventure he would have that day. Then he thought no more about the gold mine for they were at the Hollow Stump School and Bunty had to hop to say her lessons.

"Goodbye," said the rabbit gentleman.

Bunty was very good in school. She put her lollypop away in her desk and didn't bring it out again until recess. Then, when she was sucking it and giving turns to Susie Littletail and to Jingle and Jangle, who were Uncle Wiggily's twins, why, Jackie Bow Wow asked:

"Where'd you get it, Bunty?"

"Uncle Wig dug it for me with money he dug out of his gold mine," answered the little orphan rabbit.

"Oh, oh, oh!" shouted all the animal children. And so Jackie Bow Wow said to his brother Peetie:

"We could dig a gold mine!"

"Sure, we could!" barked Peetie. "We're good diggers."

"So am I!" said Sammie Littletail, a rabbit.

"Then let's dig a gold mine, after school," went on Jackie. "Maybe we can find money to buy a lot of lollypops!"

"What fun!" shouted Baby Bunty.

So after school many of the animal boys and some of the animal girls went over in a big field to dig for gold as they thought Uncle Wiggily had done. Jackie and Peetie started digging first, scratching the dirt out of the hole with their front paws. And very soon something very strange happened. They told you about it to-morrow night when the Bedtime Story will be called Uncle Wiggily at the hole. And do you think you can stop the apple pie from chasing the cheese all around the coffee table? If you can the powdered sugar won't have to go hide in the salt cellar.

"Where'd you get it, Bunty?"

"Uncle Wig dug it for me with money he dug out of his gold mine," answered the little orphan rabbit.

"Oh, oh, oh!" shouted all the animal children. And so Jackie Bow Wow said to his brother Peetie:

"We could dig a gold mine!"

"Sure, we could!" barked Peetie. "We're good diggers."

"So am I!" said Sammie Littletail, a rabbit.

## NEW TRIAL IS GRANTED

John A. Nettleton Succeeds in Personal Appeal to Court

Wrongful Questioning Witness Is Ground; Burglars Lose Pleas

John Alfred Nettleton, native of Victoria, sentenced to seven years in Vancouver on a charge of rape, was granted a new trial by the Court of Appeal yesterday afternoon.

His appeal, made in person, was allowed on the grounds that at his trial questioning of his brother in regard to the prisoner's past criminal record had been permitted. The justice agreed that this was an error in law. While questioning of an accused in the witness box as to his record was permissible, other evidence to this effect was not justified except under certain circumstances.

W. C. Moreby, K.C., concurred with the court to the extent that he said he would not attempt to conjure up an argument to justify the course taken at the trial in this respect. Four other criminal appeals before the court yesterday were dismissed.

**APPEALS DISMISSED**

William O'Brien appealed against conviction for possession of postage stamps stolen from the Cloverdale, B.C. post office, where the safe was blown last January. He was connected with the crime through discovery of the stamps in a car he had hired. Justice McPhillips would have granted a new trial on the grounds that questioning of the accused by a police officer during the investigation had been improperly handled.

Frank Lonsdale appealed against a three-year sentence for breaking and entering in Vancouver, claiming the identification by crown witnesses was not positive.

J. L. Brown appealed against a two-year sentence for indecent assault on a sixteen-year-old girl. The prisoner, who was deaf, submitted a written brief to the court pointing out that he was alleged to have carried on a conversation with the complainant, but could not have done so. There was also a discrepancy in identification, he claimed. The court was unanimous in dismissing the appeal.

Thomas West of Vancouver based his appeal against conviction for breaking and entering on the grounds of insufficient evidence. The decision of the court was also unanimous against him.

## PROVE NEW BRIDGE DEAL

nich and Esquimalt to tribute \$1,000 Towards Structure Across Gorge

Municipalities Will Have Responsibility in Construction of Span

struction of a new steel bridge across the Gorge, at a cost of approximately \$500 each, Saanich and Esquimalt, was mentioned by councils of the two municipalities at meetings yesterday evening.

proposal, as outlined in a communication from the Provincial Department of Public Works, is to have municipalities erect concrete abutments at each end of the bridge, necessary grading work, demolish present bridge and provide and timber decks.

### VED OF RESPONSIBILITY

William Crouch explained that it has been in touch with government officials and had reached an understanding under which the municipalities would contribute \$1,000 and be of all responsibilities in connection with the construction. He also stated that Saanich relief could be used on the project, the of which will be borne by that municipality. The entire agreement seemed satisfactory to Saanich.

### NALTY AGREES

Esquimalt Council considered after a special meeting and sanctioned the proceeding of this plan. Information has been given as to work will be started, but it is understood municipal officials will not get under way as soon as they, as there have been numerous delays received from ratepayers that the span be opened to for the summer at the earliest convenience.

## D CROSS IS OF GREAT USE

ic Work of Frontier Settlements Specially Honored by Man Somerville, K.C.

ada's Contribution to Great Work Lauded

on the Treaty of Versailles was up, there was one clause at least met with unanimous approval, that from that day forth every party to the treaty should see that the Red Cross should not out of existence until the next emergency, but that its work should be extended to embrace the relief of suffering, the promotion of health and the removal of disease, Norman Somerville, K.C., Chairman of the central Red Cross Council, in addressing the Red Cross organization in the Hotel yesterday evening.

SS THE WORLD a great peace time work was being forward nobly by the army of Red Cross workers across the world, he said in proceeding to discuss a number of heroic accounts of Red Cross nurses in the field, settled areas of Canada, the year in Canada the organization

had been responsible for 500,000 visits to hospitals. In addition to the general welfare work of the Red Cross, two new activities were listed which the speaker said had risen out of the genius of the Canadian people, and were Canada's contributions to the world Red Cross. These were the outpost hospital and the junior Red Cross.

### OUTPOST HOSPITALS

The first outpost hospital had been built in northern Saskatchewan chiefly through the efforts of Sir Richard Lake, then Lieutenant-Governor of that province, who as a member of the Red Cross Society was on the platform yesterday evening. The speaker added there was now forty-five of these outpost hospitals in the Dominion. There had been of course been many more since the inception of the idea, but as the population of the districts grew, the Red Cross institutions naturally gave

way to municipal and governmental ones.

In one year, Mr. Somerville continued, 22,500 men, women and children had been cared for in these outpost hospitals, and since their establishment, 170,000 people have been attended. Last year 1,400 babies were born in Canada under the auspices of the Red Cross, and not a mother was lost.

### NOTABLE FORCE

Since the inauguration of the Junior Red Cross, the membership in Canada had grown to 250,000, and the world membership to 12,500,000, the speaker stated. The two-fold mission of the Juniors was to promote health and to foster kindness. The speaker saw the Junior movement as a notable force in the creation of international goodwill. The Red Cross hostels had given 400,000 night lodgings to Canadians and three meals a day to those who needed them. Other valuable services for which the Red Cross had been responsible had been public nursing and nursing classes for mothers.

Sir Richard Lake moved a vote of thanks to the speaker. An outline of the work of the local Red Cross Workshop and an appeal for its continued existence were made by Dr. Cyril Wake. He considered the dissolution of the shop would be a great setback to the work of caring for disabled veterans. Instrumental and vocal numbers were rendered by the Warncliffe Trio, Miss Ailes Barclay and Sidney Chiverrall.

Nearly all waters in Alberta suitable for game or coarse fish have been stocked to some extent in the last few years.

## Union Men Throw In Lot With C.C.F. Party

At Independent Gathering Trades Unionists Decide to Affiliates

Will Select One Candidate For Provincial Election Contest in City

On a 13-5 vote, delegates from approximately half the Victoria trade unions decided yesterday evening to affiliate with the Co-operative Commonwealth Federation for the purposes of contesting the forthcoming provincial election.

The labor group has been invited to name one of the four candidates who will stand in Victoria on the C.C.F. ticket, but the selection of this man was deferred to a later date.

Charles Chivers, Gordon Shaw and C. Hunt were chosen as delegates to the district council of the C.C.F. representing the labor unions.

While the meeting was termed a gathering of trades unionists, it was expressly stated that it in no way committed the Victoria and District Trades and Labor Council on the political issue.

Delegates from the pressmen, lathers, sheet metal workers, machinists, carpenters and joiners, and musicians unions presented credentials, and others representing the painters, pile drivers, stage employees, street railwaymen, typographical union and teamsters were admitted, but all did not vote. There are twenty-two unions affiliated with the Trades Council.

Harry Owen, president of the Trades and Labor Council, expressed himself as fully opposed to the affiliation move. Representatives of some locals disagreed with any idea of the trades council entering politics.

Mr. Owen was removed from the chair on the vote of the meeting and replaced by Frank Curtis. Mr. Owen was accused of trying to "run" the convention after he had advocated that only delegates with accredited credentials be permitted to vote.

FOUR CANDIDATES PLANNED The election plan of the C.C.F. in Victoria, it was explained, is to have four candidates representing the groups associated with it as follows: One for the socialist party, one for the People's Movement, one for the Movement for Social Reconstruction and one for labor. The district council will pass on all candidates, and the provincial executive will then have the power of giving final approval to the selected men.

Victor R. Midgley was the greatest proponent of the C.C.F. at the meeting. It was the first ray of hope that labor had seen on the horizon for many years, he declared. Labor had been jockeyed between the two major political parties and neglected by both. The big interests came out on top, which ever way elections went and those who paid the piper called the tune.

"It has been said that the spectre of C.C.F. is the only thing worrying the two big political party leaders. I hope this is true, and I can tell you that the C.C.F. is making big inroads on the prairies, and is also strong in Ontario," Mr. Midgley said.

He made the motion for affiliation. T. Nutt, of the pressmen's union, scored it as a political move, declaring politics should be kept out of the trades council.

OPPOSED TO UNIONISM

Mr. Owen turned it as a move to get

the trades unions behind the Socialist party under the cloak of the C.C.F. when it was well known that the Socialist party was opposed to trade unionism.

This drew a hot denial from Mr. Midgley and remarks from Mr. Chivers, who accused Mr. Owen of trying to form a city labor party when he knew the unions were considering the C.C.F. proposals. It was time to sink individualism and get a solid vote, Mr. Chivers added.

Mr. Midgley asserted that the Socialist party was retaining its identity, and threw out the charge that anti-socialists were trying to control the meeting. When the vote was taken a few of the delegates declined to be recorded, not having instructions from their locals.

## PRAISE WORK OF CONSTABLE

Saanich Commission Commends Constable Cummings For Performance of Duties

Constable Kenneth Cummings of the Saanich police force was warmly commended by the municipal police commission yesterday evening for the excellent performance of his duties on May 14, when, after a four hour vigil during the early hours of the morning, he arrested four men for stealing gasoline from a private car on Falmouth Road.

The commission's appreciation will be expressed to the constable by Chief of Police Allan Rankin.

In making the commendation the commission felt that such action would serve to encourage the men in their duties. It is not the board's general policy, but it was felt that this instance was worthy of mention.

### DISCUSS BILL

The Eagles' National Stabilization Bill, otherwise known as the Ludlow Bill, was discussed by members of the Victoria Aerie, No. 12, F.O.E., at the regular meeting yesterday evening. This memorandum was prepared by Congressman Louis Ludlow, of the Indianapolis Aerie, and presented to President Roosevelt, a member of the organization, for his consideration.

Two applications for membership were accepted at the meeting, as was the transfer of Bro. J. O. Franck from Aberdeen Aerie, No. 24.

# Hudson's Bay Company

INCORPORATED 2ND MAY 1670

Again "The Bay" Hits the Target—This Time With

# ECONOMY DAY

Saturday brings another great store-wide saving event at "The Bay." This is the day when dollars, half-dollars, quarters and dimes are stretched 'way out over their ordinary buying capacity—when important savings are available in every department—savings on holiday needs—on foods—on home furnishings. Look over these items, check off the ones you need and remember there are lots more not advertised.

## HEIGH HO—IT'S A GREAT LIFE!

## Guard Your Family's Health On That Vacation

By DR. MORRIS FISHER.

With the coming of warm weather the old bus takes to the road and the family is off on their vacation trip.

In most communities the common type of vacation is the week-end-cook-your-own type; that is to say, the vacationist starts off with a basketful of lunch and a case of pop, and with the hope that the fates will be good to his family and keep them from all disease and harm.

The fates have a way, however, of aiding the fool killer and bringing the wise and provident. Therefore, the family that wants to prevent disease on such a brief vacation will take along enough ordinary mosquito netting to keep away insects at night.

While the average mosquito may not carry either malaria or yellow fever, it is an annoyance. Moreover, in the southern parts of the country and in the western sections there is the possibility of bites by insects that do carry diseases, including both mosquitoes and ticks.

If the family is going into a region where the water supply is not likely to be safe it is well to have everyone vaccinated against typhoid fever. Even with vaccination, however, it is well to be certain of water supplied at every camp. The safest means is to boil all fluids that are to be taken into the interior of the human body and to be careful that bathing and washing water as well are not taken into the body.

The source of all milk should be known; that is to say, it should be pasteurized or should come from tuberculin tested cattle under conditions which permit certification. Canned milk and canned cream are preferable to milk supplies of unknown origin.

The peril to the vacationist from an infected wound is sufficiently serious to make it worth while for every motor car to carry a box with some cotton, gauze, bandages, a pair of scissors, some tincture of iodine or any other suitable antiseptic substance.

It is well to have a solution of boric acid in water for cleansing the eyes when full of dust or when irritated by glare and heat.

There are numerous ointments available for direct application to mosquito bites, poison ivy, burns, itching and similar emergencies affecting the skin.

Most people traveling on vacation trips to get along with a diet of fried eggs, bread and coffee. This gets tiresome after a while and furthermore, lacking in many of the essentials of a well-balanced diet which are provided by fresh fruits, vegetables, and plenty of milk.

It is remarkable how much better one will feel on a vacation trip with one that is limited. Finally, the human physiology is regulated so that it operates best on a regular schedule.

People going on motor trips are likely to try to change their usual habits with the result that they do themselves exceeding harm not only for the duration of the trip, but even for the rest of their lives.

It is well to plan a trip sufficiently leisurely to permit full attention to the usual needs of the human body.

## CHINESE IS FOUND SHOT

Elderly Man Dies at Dart Coon Club With Bullet in Brain

Believed to have preferred sudden death rather than a lingering illness, Lim Fay, fifty-five-year-old Chinese, was found shot in the telephone room of the Dart Coon Club, 558 Pignard Street yesterday afternoon.

The inquest will be held at Thompson's Funeral Home on Monday morning.

Lim's friends said he had been ill for some time. Yesterday afternoon he left his room at 1724 1/2 Government Street, and apparently proceeded directly to the Dart Coon Club. When they heard a shot someone went to investigate and found him slumped in a chair, shot through the head. A .32 calibre revolver was in his hand with a finger still on the trigger.

## CARIBOO GOLD WINS ACTION

Vancouver Suit Brought to Recover Eight Mineral Claims Lost by Plaintiffs

Vancouver, June 15.—A verdict for the defendants, the Cariboo Gold Quartz Company Limited and P. M. Wills, managing director, was the result of two and a quarter hours' deliberation after a trial which opened here Monday before Chief Justice Morrison and a special Supreme Court jury of an action by Gordon L. Brookes and M. C. A. Hurford to recover eight mineral claims.

"The bite of the case is whether the plaintiffs are people on whom you can possibly place credence," said the chief justice to the jury in his summing up, adding there was a limit to one's credulity.

Brookes is a mechanical engineer, who resides at Mackay Avenue, Burnaby, and Hurford resides in Toronto, having come to Vancouver from Australia in 1930 with his wife and son.

DOCUMENT IMPOUNDED

A document which the court could not "shut its eyes," introduced in the defence yesterday, was impounded by Registrar Aubrey Clarke to be forwarded to the Attorney-General on instructions of the trial judge.

Ruth E. Brookes, divorced wife of one of the plaintiffs, was called to the

witness box by Chief Justice Morrison, and said she had had the original of the photograph copy of a document shown to her by J. W. deB. Farris, K.C., defence counsel.

D. N. Hossie, K.C., plaintiffs' counsel, objected to admission of the photograph, but the chief justice directed Mr. Farris to read the document, "the original of which Mr. Brookes admitted having given to Hurford and received back again."

It was dated November 24, 1930, at Barkerville, and set out an agreement drawn up between Ruth Brookes, Gordon L. Brookes and William Ferguson prior to divorce proceedings instituted against Mrs. Brookes, in which Ferguson, mining camp cook, was named co-defendant, "to prove to each that it was only to satisfy the law, that the charge was made by the husband against Ferguson, that Brookes personally did not believe the charge."

The court adjourned until next Monday, Federal Judge Henry W. Goddard said the attorneys would sum up on Monday and Tuesday and the twelve men of moderate means comprising the jury would receive the case Wednesday.

Appearance of Smith to climax the case the defence opened a week ago Monday came as a surprise. With him as character witnesses were a Republican former governor, Charles F. Whitman; Arthur Brisbane, journalist; Supreme Court Justice Morgan J. O'Brien and others.

The former governor said he had known Mitchell five years, but "knew of him long before that." Their relations were "mostly social," but they also had met in connection with public affairs. He declared the banker's reputation to be "of the best."

Whitman, Brisbane and Justice O'Brien, who have known Mitchell for thirty, eleven and fifteen years, respectively, all said his reputation was "very good."

Associated Press

New York, June 16.—A dramatic gesture that brought former Governor Alfred E. Smith to the stand to testify Charles E. Mitchell's reputation was "of the best" completed the former banker's defence yesterday to charges of defrauding the federal government of \$650,000 in income taxes.

The court adjourned until next Monday, Federal Judge Henry W. Goddard said the attorneys would sum up on Monday and Tuesday and the twelve men of moderate means comprising the jury would receive the case Wednesday.

Whitman, Brisbane and Justice O'Brien, who have known Mitchell for thirty, eleven and fifteen years, respectively, all said his reputation was "very good."

Associated Press

New York, June 16.—A dramatic gesture that brought former Governor Alfred E. Smith to the stand to testify Charles E. Mitchell's reputation was "of the best" completed the former banker's defence yesterday to charges of defrauding the federal government of \$650,000 in income taxes.

The court adjourned until next Monday, Federal Judge Henry W. Goddard said the attorneys would sum up on Monday and Tuesday and the twelve men of moderate means comprising the jury would receive the case Wednesday.

Appearance of Smith to climax the case the defence opened a week ago Monday came as a surprise. With him as character witnesses were a Republican former governor, Charles F. Whitman; Arthur Brisbane, journalist; Supreme Court Justice Morgan J. O'Brien and others.

The former governor said he had known Mitchell five years, but "knew of him long before that." Their relations were "mostly social," but they also had met in connection with public affairs. He declared the banker's reputation to be "of the best."

Whitman, Brisbane and Justice O'Brien, who have known Mitchell for thirty, eleven and fifteen years, respectively, all said his reputation was "very good."

## GRACIE FIELDS AT THE EMPIRE

Popular English Comedienne Has Leading Role in "Looking on the Bright Side"

According to a recent ballot conducted by a leading paper in London, the most popular feminine British star is Miss Gracie Fields, the famous Lancashire comedienne.

"Looking on the Bright Side," which comes to the Empire Theatre to-day, holds the centre of the screen during the greater part of the film. This gives her plenty of scope for displaying her inimitable fun which has made her loved throughout England and her talent for that peculiar fluty vocalism which invests the ordinary ballad with unexpected piquancy. She sings no less than five songs, all of which have been ingeniously welded into the story—one of which, "He's Dead But He Won't Lie Down," being such a hilarious affair that it must be one of the successes of the year.

Busby Berkeley had to take the chorus through the usual routine, stopping just when he thought they would be good enough to get by, but knowing that their "roughness" would make the number look bad.

Miss Patterson says she learned the part thoroughly when her judge father found she had been secretly studying to become an actress.

One of the biggest numbers in "42nd Street," now showing at the Columbia Theatre, is one that is supposed, purposely, to be "bad." So bad, in fact, that they throw it out of the show. Yet it took more rehearsing to make it "bad" than it did to make the other numbers in the big musical show "good."

Daughter of a Tennessee attorney, later a judge, Elizabeth Patterson, playing a character part in the "Infernal Machine," now at the Playhouse Theatre, turned assistant director one afternoon during the production just to show one of the sailors how to be severe with the professor who is being disciplined forcibly on the ocean liner.

ra Nurses Employed to  
deal With School Cases of  
Rhubella

Local cases have been taken by health authorities to handle the epidemic rhubella, or German measles, the number of cases is gradually declining. Dr. Richard Felton, medical officer, announced this morning.

Extra nurses have been employed to follow up all school cases in the city to prevent the spread of the disease. The interruption of the epidemic may be as slight as possible.

## Saanich Resident

### Dies in Hospital

William Henry Howe, 84 Cadillac Avenue, Saanich, passed away yesterday evening at St. Joseph's Hospital, aged seventy-four. Born in Uxbridge, Ontario, he resided for twenty years in Robin, Man., before coming to this city five years ago. He is survived by his widow at the family residence; two daughters, Mrs. S. T. Argent, Deepdale, Man., and Mrs. H. P. Pitcher, Dauphin, Man., and three sons, Clifford E. Howe, Edw. Makaroff, Man., and A. Leroy Howe, Ketchikan, Alaska. Funeral arrangements will be announced later.

## POLICE FIND

### STOLEN LAUNCH

Craft Belonging to Roy C. Denny, Victoria, Located Near Port Renfrew

A launch belonging to Roy C. Denny, 1863 Cambro Road, and stolen from Cambro Bay last Sunday, has been found in a small bay just outside Port Renfrew, on the west coast of Vancouver Island, according to word from provincial police headquarters here today. B.C.P.M.L. No. 7, in charge of Corporal Dunbar, which left its base at Alberni and eventually found the boat, has not returned yet with a report, but it is believed to be towing the Victoria craft back to the city.

It is not yet known whether any suspects are being held or looked for. The launch, B.C.P.M.L. No. 6, a much smaller boat in charge of Constable Tweedhope, beat the water to the west coast. This valuable information resulted in the provincial police launch finding the boat just outside Port Renfrew.

## SERVICES HONOR

### COL. SHARLAND

At Ceremonies in Armories He Expresses Regret at Leaving Victoria

Lieut.-Col. A. A. Sharland was yesterday evening tendered a farewell by the United Services Institution of Vancouver Island at a gathering at the Armories. Major H. Outhbert, Hon. vice-president, presided and there were a number of features in addition to the addresses to Col. Sharland.

Brigadier J. Sutherland Brown, of the commanding Military District 11, delivered the address of farewell for the institution.

"Col. Sharland has always given service without monetary reward," said the brigadier, "and he has been a leader of such organizations as leaving Victoria."

In reply, Col. Sharland said he hoped to return to Victoria in future years to take up his residence here again. He was extremely sorry to leave this city now and the many friends he had made during the last four years in Victoria, he said.

Besides being president of the United Services Institution, Col. Sharland is vice-president of the British Columbia No. 7 Canadian Legion, and was attached to the First Battalion of the Canadian Scottish Regiment, 16th C.F.

He will leave Victoria on Sunday for a short time in Quebec before sailing for England. It is his intention to settle in the south of England. Members of his family have preceded him there.

## NEWS IN BRIEF

A general meeting of the Workers' Ex-servicemen's League will be held to-night at 8 o'clock, 564 Yates Street.

Announcement is made in The B.C. Gazette to-day that Edward C. G. Chambers of Esquimalt has been made a Justice of the Peace.

Examinations for assayers for licenses to practice in British Columbia will be held at Victoria next Monday. It is announced in The B.C. Gazette to-day.

Reeve William Crouch was re-appointed Saanich representative on the board of directors of the Jubilee Hospital by the municipal council yesterday evening.

Application of the Brentwood Athletic Building Company Limited to build an athletic hall on the B.C. Electric right of way in Ward Six was granted by the Saanich council yesterday evening. The building is valued at \$3,000.

Ward Three Liberal Association will hold a dance and contest at Liberal Headquarters, corner of Government and Broughton Streets, this evening. Dancing will be from 9 o'clock to 12 o'clock. There will be a four-piece orchestra.

The annual picnic of the local unit of the Army and Navy Veterans of Canada will be held on July 1 at Deep Cove. It was decided yesterday evening at the general monthly meeting of the branch, George Gardiner and Captain F. F. Money were appointed local delegates to the meeting of the provincial committee to be held in North Vancouver on July 8.

The congratulations of the Saanich council were yesterday evening tendered to Councillor W. R. and Mrs. Woods, who recently celebrated their silver anniversary. Reeve William Crouch suitably expressed the council's sentiments and Councillor Woods replied briefly on behalf of himself and Mrs. Woods.

The annual picnic of the St. Alban's Sunday school will be held tomorrow morning at Mount Douglas Park. Buses will leave the church at 10:15 o'clock and transportation will be provided for all. In event of inclement weather, the picnic will be postponed until Saturday, June 24.

Efforts to stop raids on strawberry patches by youths during the approaching berry season will be made by the Saanich police commission. At a meeting yesterday evening the commission authorized appointment of a special constable by Chief Allan Rankin to patrol the various berry farms during the picking season.

George A. Okell, city assessment commissioner, announced this morning that the annual traffic count in the city will be held on June 24. The figures secured by this count are taken at different centres and form a basis for judgment of property values in the heart of the city.

For an explanation of the recent reorganization of the Victoria Branch of the Automobile Club of British Columbia, which has become the Victoria Automobile Club, a general meeting will be held next Thursday in the Crystal Garden rear hall room. The executive met yesterday evening and reached this decision.

Complaints attended by the Saanich Police Department during May totaled eighty-nine. It was reported by Chief Allan Rankin to the municipal commission yesterday evening. This total included five motor accidents. There were twelve court cases during the month and \$566.50 was collected in fines, license fees, and taxes. The report for April was that there were ninety-one complaints, six motor accidents, seven court cases and \$371 collected.

Willard Fred Fish of Vancouver did not like his name. "I hereby assume and adopt and will henceforth use the name of Willis Fred Willard," he declared in the statement of the same name Willard Fred Fish, which I hereby renounce and abandon," he says, in a notice in The B.C. Gazette to-day. Tom Hardon of Vancouver also did not like his name. He has recently had it changed to Alice Hardon.

Efforts to eradicate the Canadian thistle pest in Saanich will be taken by the municipality immediately. It was decided at a meeting of the police commission yesterday evening. Clearing the pest from municipal property and the police will make efforts to have farmers and other landowners clear their own property. The attention of the commission to the prevalence of the pest was drawn by a communication from J. Wenman.

Brigadier-General F. H. Wilkinson, director-general of the postal service of Great Britain, will address a reception to be held at a luncheon in the Empress Hotel on Saturday at 12:15 o'clock. His subject will be "The Constitution and Operation of the United Kingdom." The distinguished speaker is also chairman of the preparatory commission which has been meeting at Ottawa to prepare a plan for a forthcoming meeting of the postal union.

The provincial government has been awarded the decision in the claim against the Bank of Commerce Ltd. for loss and damages resulting from highway work on the Stave River diversion of the Dewdney trunk road. The claim was made by the bank against the province was for \$59,388, but the government offer of \$900 for settlement was upheld by Francis C. Forbes, a former jurist of the Maritime, the former arbitrator.

A letter from the Central Railway Employees' Association suggesting that the Saanich Police Commission purchase its own cars for police work instead of making the customary allowances to individual employees of the municipality was received and filed at a commission meeting yesterday evening. The reeve pointed out that this matter had been thoroughly discussed at the last year's budget and was being prepared and the present method had been found to be cheaper. It was decided to inform the association of this fact by letter. The same action was taken by the municipal council with a similar letter from the same body.

A musical comedy, "Thou Shalt Ride Riding Hood's Reception" will be staged at the South Park School tomorrow evening at 8 o'clock. The cast includes Miss Ruth Standish, Miss E. Sedgley, Tom McCreedy, Miss E. Wells, D. Bevan-Pritchard, Miss E. MacDonald, Miss E. Watson, Miss E. Pearson, Miss J. Appleby, Miss P. Perry, Miss I. Sherriff, Miss I. Pearce, G. MacDonald, E. Ball, E. Moore, D. Ogilvie, D. Preston, D. Stott, Miss A. Headie, Miss E. Allan, Helen Ferguson, Evangeline Dale, Viola Phelps, A. Williams, J. Williams, H. Kerkin, Miss E. Wallace, Mr. Shaubolt, Mrs. M. Green and G. H. Bevan-Pritchard.

## DEBTS HOLD

### WORLD BACK

Complete Cancellation Sought By Southern Dominions, Says F. Milner

Will Address International Rotary Conference at Boston on "The New Order"

Adjustment of war debts as well as downward revision of the tariff structure and stabilization of currency is vital to the return of world normalcy in the opinion of New Zealanders and Australians, according to F. Milner, New Zealand delegate to the Rotary International Conference at Boston. Mass., who was a passenger by the S.S. Monowal from Auckland yesterday.

Mr. Milner, a noted educationalist and economist of New Zealand, said he would speak on "The New Order" at the Boston conference which opens this month. He will then go to the National Educational Congress at Chicago, will attend the Institute of Pacific Relations conference at Banff in August and then go to Ottawa. He was last in Victoria in 1929 when he was a delegate to the National Council of Education conference.

Mr. Milner said the New Zealand people favored cancellation of war debts, the general contention in the southern dominions being that the world cannot go on under the present economic stress and that the state must be wiped clean for a new start. There is hope in New Zealand, Mr. Milner said, that something tangible would emerge from the World Economic Conference in London leading to cancellation of war debts. If Great Britain received all that is coming to it from European nations, including the loans Russia repudiated, it would receive four times as much as the amount it is obligated to pay the United States, he said. He believes President Roosevelt is sincere in his efforts to show a way out of the world crisis. He said the U.S. president was a great man, valiantly trying to do a man's job. If anything happened to him now, he added, it would be tragic.

Speaking of the government's Unionist activities, the leader of the opposition remarked: "It is time that this business ended. The affairs of the province are too serious to be allowed to drift. It is to the convenience of a few men who admit their own incapacity to cope with conditions."

"The administration as now constituted is not elected by the people, and does not represent the people. Ministers have withdrawn from the government. The speaker has deserted it. As have also private members who support the government. The rank and file of the Conservative party is opposed to it."

"A conservative administration was elected in 1928. To-day there is no such administration. The ministers who are clinging to office have not the courage to face the electorate. There is a lot of preparatory work before the next session and the incoming administration should be given proper opportunity to prepare its programme. An election should be called forthwith."

## Red Cross Donations

Donations received to-day by the Victoria and District Branch of the Canadian Red Cross Society are as follows: Friends, \$20; Miss Hoole, \$1; Two Friends, \$5; Mrs. J. D. Jones, \$2; Anonymous, \$5; Mrs. S. J. C. C. Abbott, \$10; Major S. Robinson, \$5; Mrs. A. Forster, \$5; Mrs. E. H. D. E. W. McMillan, \$10; G. H. Dawson, \$50.

## SAYS HOLE OPEN,

### SUES FOR \$1,000

Edmund Spence Found Himself Unexpectedly in Basement of Building

Edmund Spence, 1021 Deal Street, contractor, was walking down Deal Street at noon recently, when near the corner of Government Street he suddenly found himself in the basement of the building. He had walked into an open trapdoor man-hole in the sidewalk, he says.

With C. L. Harrison as his lawyer, the Canadian Realty Corporation Ltd., and the Royal Bank of Canada, sued him for \$1,000 damages. He claims the trapdoor was left open and unguarded and there was no warning sign to prevent him from walking into it. As a result he suffered contused muscles of the right thigh, pains, laceration, a sprained right shoulder and shock.

When the trial was resumed to-day before Judge Lampman, Mr. Harrison called as witnesses for the plaintiff, Dr. E. L. McEwen, Beattie Lillian Spence and Mr. Spence himself. A. D. Macfarlane, K.C., is conducting the defence. The trial is continuing.

## SLOAN REPLIES

### IN ESTATE APPEAL

Gordon McG. Sloan, counsel for the respondents, the Bank of Toronto, and Royal Trust Company as executor of the estate of the late Mrs. R. L. Reid, K.C., before the justice of the court of appeal in the appeal of the York-Insure Insurance Company against a judgment of Mr. Justice Fisher of the Supreme Court.

The insurance company is asking the higher court to rescind a receiving order in favor of the respondents as executors for the Austin estate. Mr. Reid argued that the Austin estate was bankrupt and the trust company was an executor of the trust company of bankruptcy when it ceased to meet its liabilities. He claimed that if the estate were not sufficient to pay in full the debts and liabilities, it should be administered under the provisions of the Creditors' Trust Act and the Administration Act.

Excursion to Seattle, Saturday, June 17, Princess Margaret.

## Birthday Greetings

### Are Extended To-day To

CHIEF JUSTICE MORRISON  
WILLIAM BLAIR  
R. J. BARROW  
DUNCAN MACBRIDE  
LIEUTENANT H. McSWEEN

Chief Justice Morrison of the Supreme Court of British Columbia celebrated his seventieth birthday yesterday by presiding at sessions of the Assize Court in Vancouver. The chief justice is well-known in Victoria as he spends much time here.

R. J. Barrow of H.M.C.S. Skeena, engineer-artificer in charge of motor boats, is twenty-seventh to-day. He came to Victoria from Portsmouth three years ago. He is interested in cricket.

Lieutenant H. McSween of the Victoria Fire Department has been a firefighter for a number of years. He is celebrating his forty-seventh birthday to-day.

Duncan Macbride is an active member of the Rotary Club in Victoria. He is manager of the Victoria Cold Storage and Terminal Warehouse Ltd.

William Blair is a well-known basketball player. He played basketball for the Centennials who won the city senior "C" championship this year, and for the Sons of Canada and in his spare time engaged in a game of tennis and softball. He is also a swimmer and diver and came third in the Pacific Northwest gala a few years ago. He resides at 2755 Avenue Avenue and his wife and young son. His birthday is to-day.

## ELECTION SHOULD

### BE CALLED SOON

Pattullo Criticizes Ministers For Clinging to Office

There is a lot of preparatory work before the next session of the B.C. Legislature and the incoming administration should be given proper opportunity to prepare its programme, T. D. Pattullo, Liberal leader, said this morning in again calling for an election to be called immediately.

Speaking of the government's Unionist activities, the leader of the opposition remarked: "It is time that this business ended. The affairs of the province are too serious to be allowed to drift. It is to the convenience of a few men who admit their own incapacity to cope with conditions."

"The administration as now constituted is not elected by the people, and does not represent the people. Ministers have withdrawn from the government. The speaker has deserted it. As have also private members who support the government. The rank and file of the Conservative party is opposed to it."

## DELEGATES TO

### VISIT SHRINE

Catholic League Off to St. Anne de Beaupre: Elect Officers

Quebec, June 16.—Delegates to the annual convention to-day elected Mrs. J. G. Keenan of Toronto president of the Catholic Women's League of Canada for the ensuing years. Mrs. Keenan was first vice-president this year, and succeeds Mrs. W. J. McIntyre of Charlottetown in the presidency.

The other new officers are: First vice-president, Mrs. A. W. Robertson, Montreal; second vice-president, Mrs. T. H. Hay, Regina; third vice-president, Mrs. J. Coffey, Montreal; fourth vice-president, Mrs. L. A. Dore, St. John's, Nfld.; fifth vice-president, Mrs. J. E. Turco, Quebec; honorary secretary, Mrs. E. E. Landry, Calgary; honorary treasurer, Miss P. Boland, Toronto.

A short meeting of the thirteenth annual convention holding sessions since Monday, to a close. The delegates will form a pilgrimage to St. Anne de Beaupre to-morrow, and from there they leave for their homes.

## YOUTH SHOT IN

### VANCOUVER DIES

Vancouver, June 16.—Joseph Hendrickson, eighteen, of Pandora Street, who was shot down during an alleged attempted burglary of a produce store at Denison and Davie Streets at 4 o'clock Thursday morning, died in the General Hospital to-day.

The youth didn't regain consciousness. He suffered from the wounds on the left side of his head and neck. Hendrickson was identified by his parents in the hospital yesterday afternoon. Until then, police and hospital authorities were in doubt of his identity.

The young man was shot by Gooch King, employee of the store, who was seen to have fired two shots at him. The youth was found on the ground and taken to the hospital. He was found with a bullet wound in the head and a bullet wound in the neck. He was found with a bullet wound in the head and a bullet wound in the neck.

Gooch King, who was arrested on Thursday, was charged with attempted murder. He was found with a bullet wound in the head and a bullet wound in the neck. He was found with a bullet wound in the head and a bullet wound in the neck.

## Bland Adoption

### Order to Stand

Supreme Court of Canada Confirms B.C. Courts in Case Involving Religion

The Bland vs. Agnew case, involving the adoption of a young daughter of Charles and Jean Bland, was finally disposed of to-day when H. A. Beckwith, counsel for the defence, received a telegram from Ottawa announcing that the Supreme Court of Canada had refused the application for leave to appeal made by C. L. O'Halloran, counsel for the Blands. The decision of the Supreme Court of Canada confirms all the decisions in the case given by the Supreme and Appeal courts in British Columbia.

The case arose out of the removal of the Bland children from the custody of their parents on the grounds of conditions in the home. When one of the children was adopted by a Protestant family, action was taken in the name of the Blands to have the adoption quashed on the grounds that the Blands were Roman Catholic, and therefore the child should be brought up in that faith. Mr. Justice D. A. McDonald in the Supreme Court here issued an order discharging all questions of religious prejudice, and in allowing the adoption, supported the contention of Mr. Beckwith. Mr. O'Halloran carried the case to the Court of Appeal, which dismissed his appeal. He applied for leave to appeal to the Supreme Court of Canada, but the Court of Appeal refused this. Then on May 29 he applied to the Supreme Court of Canada for special leave to carry it there. To-day's decision is the result of that final move.

Another Bland case, involving the disposition of the rest of the children, is now before the courts. The children under an order of Magistrate Jay are now placed in the Children's Aid Society home here. Mr. O'Halloran is seeking to have them all placed in a Roman Catholic institution in Vancouver on the grounds that their parents are Catholics.

## CONFERENCE AT

### BANFF FLOOMS

Institute of Pacific Relations Groups Coming For Important Gathering

Charles F. Loomis, Secretary of Institute, Arrives Here Aboard Ss. Monowai

When the Institute of Pacific Relations Conference opens in Banff in August there will be 125 delegates present, including groups from Australia, New Zealand, China, Japan, the Philippines, Hawaii, the United States, Canada, and Great Britain, with observers from the League of Nations, International Labor Office and the French and Dutch Consuls.

Preliminary to the opening of the first Canadian conference of the Institute of Pacific Relations at Banff, Charles F. Loomis, acting secretary of the Institute of Pacific Relations, reached here yesterday evening aboard the Australian liner Monowai.

KEEN IN INTEREST  
"Great interest is being evinced in the first Canadian conference of the Institute of Pacific Relations at Banff," said Mr. Loomis. "It is particularly appropriate that the conference should be on Canadian soil in view of the fact that the organization has so large a British constituency with affiliated groups not only in Canada but also in Great Britain, Australia, and New Zealand, and with individual members in Hongkong, Fiji and other British possessions."

A Canadian group participated in the initial experiment of holding an unofficial conference of Pacific peoples in Honolulu in 1925, and that group, under the leadership of John Nelson of Montreal, was instrumental in securing the participation of an English group at the second Honolulu conference in 1927.

The Canadian Institute organization has grown steadily ever since and has been splendidly represented at subsequent conferences at Kyoto, Japan, in 1929, under the leadership of Hon. Newton W. Howell, and at Shanghai in 1931, where Hon. Vincent Massey officiated.

POINTS OF DISCUSSION  
"The Banff discussion this year," continued Mr. Loomis, "will follow a triple interest, but main emphasis will be on the theme of economic relationships in the Pacific. The three main discussion heads are economic conflict and control, instruments for international adjustment and problems of education."

Sir Robert Falconer will preside over the Banff sessions of the Institute. Sir Robert Borden is the honorary president of the Canadian organization. Hon. Newton W. Howell is Canada's member on the Pacific Council, and Hon. Vincent Massey is chairman of the co-ordinating committee.

The conference will open at the Banff Springs Hotel on August 1, after a week of preliminary committee meetings. Preparations will be made next month for the meeting of the Pacific Council of nine members, which will pass upon institute plans, and appropriations for the succeeding two years and for the meetings of the international research and progress committee.

The general secretarial staff of the Institute will move from Honolulu next month to take charge of conference arrangements following Mr. Loomis's own period of co-operation here with the Canadian committee on arrangements.

Canadians will wholly comprise the stenographic and business forces. IS LAID TO REST  
The funeral of Percy W. Allard took place yesterday afternoon at 2 o'clock at Christ Church Cathedral, where service was conducted by Rev. A. G. E. Munson. A large number of friends attended. Interment was in Royal Oak Burial Park.

# Leading Coast Dog Fanciers Coming For Big Show Here July

## THE SPORTS MIRROR

New York Giants Swing Smart Trade With Brooklyn Club

Lefty O'Doul May Find His Stride Under New Management

Former Laundry Boy Wins British Empire Boxing Title

**DETERMINED** to keep their club at the head of the National Baseball League the New York Giants put over a smart deal with the Brooklyn Dodgers yesterday. They traded reserve first baseman Sam Leslie for Watson Clark, left-hand pitcher, and Lefty O'Doul, outfielder. The Giants have more than surprised the experts this season by their serious bid for the major league pennant. The New York scribes were so impressed by the glamor of John McGraw that they accepted Bill Terry as manager with diffidence. Not even the fact that McGraw picked his successor and predicted his success could sway their opinion that the Giants would finish in the luck.

In Leslie, Brooklyn got a first baseman who has been playing first-class ball for the New Yorks. Relieving Manager Terry when the latter injured his wrist, Leslie came through splendidly during his period as a regular. Leslie will likely replace Joe Judge in Del Bissonette who have been sharing the first base duties for Max Carey's Dodgers. Neither player has been hitting the ball worth a lick.

O'Doul has been a big disappointment to the Brooklyn club this season. He has looked like anything but a champion batter and his work in the outfield became so ragged on a recent road trip that Manager Carey benched him. Clark is a good reliable left-hander and should add strength to the Giants' mound staff. O'Doul's change of scenery may work wonders, just the same as the case of Al Simmons, who was traded to Chicago White Sox this year by Connie Mack along with Jimmy Dykes and Mule Haas.

Simmons, one of the leading hitters in the American League for several seasons, is at present leading the league average, and his timely hitting has won quite a championship for the White Sox. The Pale Horse is another of the surprise teams in the majors this season and formidable challenge in the pennant race has kept the wise ones guessing.

From laundry boy to lightweight champion of the world within a few months time, is the record of Jimmy Kelo, nineteen-year-old lad of Sydney, Australia. Al Forman, a clever and hard-hitting southpaw fighter who had a splendid record in Canada and around New York and Philadelphia, and who later returned to England to win the lightweight championship, decided to visit Australia a few months ago. Forman fought in Sydney against one of the best lightweights and made a hit. He was asked to meet Kelo, a former amateur and then a mere preliminary, but he insisted that Jimmy be matched against some good fighter as a test. Kelo was matched with Bobby Delaney, Australian champion, and to the surprise of the fans, whipped the titleholder. Kelo was then matched with Forman and Kelo more the laundry boy sprang an upset defeating the Empire champion without any difficulty.

International football players in Great Britain selected to play against foreign clubs during the close season are coming under the eyes of insurance men. Evidently the clubs to whom they belong are not taking any risk of having their star players cracked up.

Trevor Wignall, the English sports writer who traveled with the English international team to Rome, came across interesting information with reference to the above point and outlines the different players who have been placed under the insurance plan. Herbert Chapman provided the first link to Mr. Wignall's story when he announced that he had insured Basil and Haggood, two Arsenal stars, for \$50,000. Following this up, Trevor Wignall found that a \$50,000 policy had been taken out for Higgs, the goalie, and that every player on the international team to meet Switzerland had been insured for at least \$25,000.

In this case if the whole English team had been cracked—rather an impossibility of course—the insurance company covering the team would have been liable for at least \$325,000.

The actual transfer fee value of the fifteen men on the international team would be around \$400,000, but the loss of the services of such players as Haggood and Basil would be much more than could be computed in money terms. Further evidence was gleaned by Wignall to the effect that the English team playing against France recently was insured for at least \$300,000.

**JACK KEARNS IS \$25,000 BEHIND**

Los Angeles, June 16.—A suit charging Jack Kearns, manager of boxers, with being twenty-five weeks behind in alimony payments, was filed in superior court yesterday by Mrs. Legana Kearns.

She claimed Kearns was ordered by a Chicago court in May, 1932, to pay her \$6,000 at the rate of \$100 weekly. Mrs. Kearns charged he kept up the payments for the last twenty-five weeks, but neglected them for the last twenty-five. She asked a judgment of \$2,500.

## Record Entry List And Good Prizes For Popular Event

**WILL BE JUDGE**

**ENTRIES WILL CLOSE JUNE 24**

**Prominent Breeders From Vancouver, Washington and Oregon to Show Strings**

With exhibitors from all parts of the Pacific Coast coming to Victoria to show their dogs, a record entry list is assured for the annual championship show of the Victoria City Kennel Club at the Bay Street Armories on July 1. This show, one of the largest staged in Canada, has grown in popularity every year with an ever-increasing list of entries. All local fanciers will have their champions entered and officials are looking forward to an outstanding exhibit.

Entries will close on June 24, one week before the date of the show. Of the entries already received seven are from the Quinalda Kennels of this city and consist of German shepherds and cocker spaniels and a like number of shepherds and Doberman pinschers from the Shepherdome kennels of Victoria. The local Drummond kennels will be represented by three and possibly four of their famous Sealhams imported, including the champion imported bitch "Brampton Buttercup."

The Shanting kennels will be represented by several Pekingeses and pomeranians, the latter a recent addition to this kennel. The Craigmore kennels will also have a strong representation of Pekingeses.

## SONNENBERG BEATS STAHL

**Former Heavyweight Wrestling Champ Takes Successive Falls at Vancouver**

Vancouver, June 16.—After taking a lot of punishment in the second and fourth rounds at the hands of Richard Stahl, Germany, 215, Gus Sonnenberg, 212, former world heavyweight champion, defeated Stahl here yesterday evening by taking two consecutive falls in the main event of a wrestling card.

In the second round Stahl punished Sonnenberg with a cradle hold, and in the fourth with a cradle hold. In the latter round, however, Sonnenberg downed Stahl with a series of flying tackles and a body press for the first fall of the match. Wasting no time, Sonnenberg again threw Stahl in the fifth with a series of flying tackles, Stahl conceding the fall.

The semi-final saw a three-round affair in which Walter Podolski, Syracuse, 215, defeated Everett Kibben, 222, Oklahoma, with a body slam and body press in the last round. In a special event Heck Trudeau, Montreal, 157, and Henry Moore, Seattle, 158, went three rounds to a no-fall draw.

## SIX SWIMMERS HAVE TO QUIT

**Sickness Forces Competitors to Retire in Marathon Event at Buffalo**

Buffalo, June 16.—Sickness brought on by swimming for almost a week in icy water yesterday forced six swimmers out of the eight-day marathon swim being held at Great Lake, Orchard Park.

The retirement of the six, John Platt, Stratford, Ont.; Sam Greller, Chicago; Alex Sorazan, Buffalo; John Hollis, Passaic, N.J.; Ernest Berrier, Newark, and Paul Chouteau, Paris, forced a rearrangement of the teams and left only the Canadian group, the Atlantic, the Buffalo and the New York State competing.

## Boston Wins Four In Row From Yank To Vacate Cella

**Red Sox Put on Giant Killing Act in American League to Gain New Heights**

**CHICAGO CUBS TAKE PIRATES**

**Tinning Turns in Four-hit Pitching Performances; Boston Humbles Giants**

Boston Red Sox, cellar dwellers of the American League almost since time immemorial, have climbed out of their usual position to the dizzy heights of seventh place.

The humble tail-enders picked on the New York Yankees, world champions, and won four straight games. An 8 to 5 triumph yesterday finally lifted them above the idle St. Louis Browns by the slim margin of a half game.

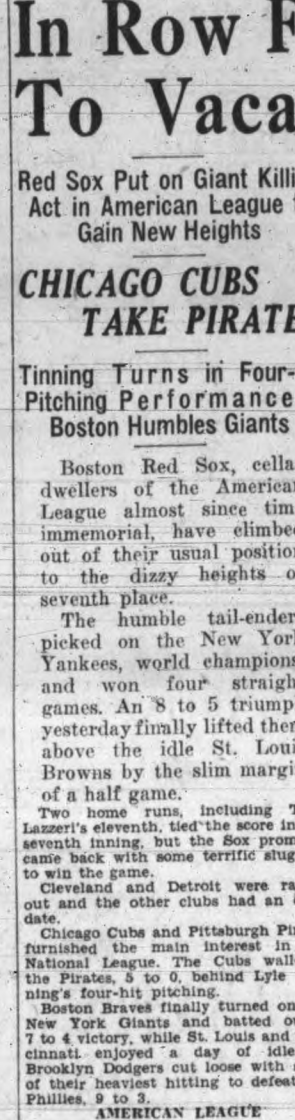

Two home runs, including Tony Lazzeri's eleventh, tied the score in the seventh inning, but the Sox promptly came back with some terrific slugging to win the game.

Cleveland and Detroit were rained out and the other clubs had an open date.

Chicago Cubs and Pittsburgh Pirates furnished the main interest in the National League. The Cubs walloped the Pirates, 5 to 0, behind Lefty Tinning's four-hit pitching.

Boston Giants finally turned on the New York Giants and won a 7 to 4 victory, while St. Louis and Cincinnati enjoyed a day of idleness. Brooklyn Dodgers got loose with some of their heaviest hitting to defeat the Phillies, 9 to 3.

## Pacesetters In Major Baseba

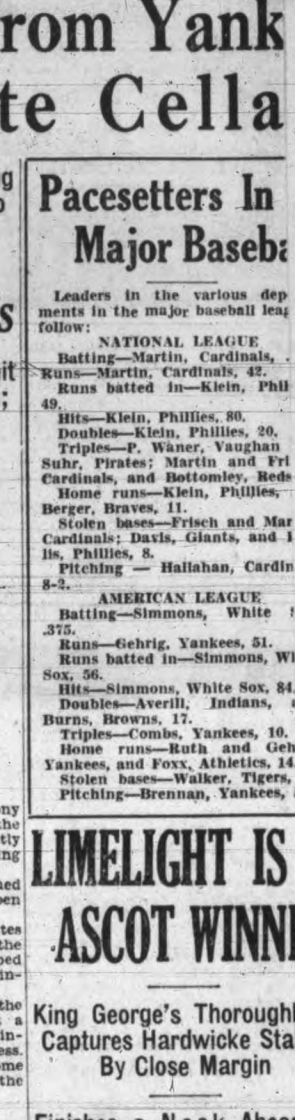

**Leaders in the various departments in the major baseball league follow:**

**NATIONAL LEAGUE**  
 Batting—Martin, Cardinals.  
 Runs—Martin, Cardinals, 42.  
 Runs batted in—Klein, Phil.

## King George's Thorough Captures Hardwicke Stak By Close Margin

**Finishes a Neck Ahead Nitschling; Concerto Tak Workingham Stakes**

Ascot, Eng., June 16.—King George's Thoroughbred captured the Hardwicke Stakes at odds of 7 to 1, to-day won the Hardwicke Stakes at a mile and a half for 6 of His Majesty's few racing v-tories of the year.

Lime-light, won by a neck from Kennedy's Nitschling, which ran yesterday in the two-and-one-half-Gold Cup, and Sir C. Chubb's De Sol was third only a head back in blanket finish. Eight ran.

The purse was \$2,000 with extra. Sir Hugo Cunliffe's five-year-old brown colt Concerto won the Workingham Stakes from a field of two three, sprinting the six furlongs length-and-a-half victory over H. line's Strathcarron with Captain I. Lord's Debonair third. The at- were \$1,000 with extras.

## BILLY GRAY IN DECISION W

**Fort Lewis Lightweight Whips Benny Pele Over S Rounds at Tacoma**

Tacoma, June 16.—Billy Gray hard-punching Fort Lewis, sold lightweight, punched out a decl on over Benny Pele in the st round main event of the boxi programme here yesterday evenin From the first round on Gr pulled up a big advantage as luffed Pele about the ring.

Henry Pulaski, Navy middlew champion from the U.S.S. Dob scored a sensational last-round kn out over Hills Murphy, Jun Alaska, in the semi-final of six rou In the other encounter, billed six reals, Sammy Santos, Filipino's terweight from Seattle, kayoed Coffman, Buffalo, in the first rou Denny Remon, Tacoma, Philly featherweight, won from Mickey I son, U.S.S. Dobbin, in four rounds, 0 Billy Toomey, Tacoma 150-pound and Pat Verde of the U.S.S. Dob went four rounds to a draw in other bout.

## Yale Crew Scores Win Over Harvar

New London, Conn., June 16.—Y registered the first victory of its equal regatta programme with Harv yesterday evening when the Yale's combination eight, composed of subtit oarsmen, won by three lengths over the Crimson boatload.

## MAX BAER OPENS EXHIBITION TOU

Pittsburgh, June 16.—Sunny J McVey, Pittsburgh negro, scored a technical knockout over Buddy McArthur, Fairmont, W. Va., in the third rou of a ten-round bout yesterday eveni McVey weighed 177; McArthur 180.

Max Baer, conqueror of Max Schm ing, boxed a speedy three-round ext bition bout with Beal Harris, ne sparring partner, in the feature ev on the night's card. Jack Demp referred.

## First Regatta Of Season To-morrow

**J.B.A.A. and Brentwood Oarsmen Will Compete in Gorge Races**

**Many Expected to Witness First Event of Year; Crews Announced**

Final plans have now been completed for the staging of the first regatta of the current season at the Gorge to-morrow afternoon at 2.30 o'clock when representative oarsmen from the J.B.A.A. and Brentwood College will meet in two races and three other events will be staged between members of the Boys.

The competitive races will be the two clubs will be the junior 140-pound four and the senior fours, the latter being the feature race of the day, with Brentwood being slight favorites to win.

**HIGH CROWD EXPECTED**  
 This being the first race of the season it is expected to attract hundreds of visitors to the Gorge. The grounds and club house will be open to the public. Afternoon tea will be served for which are in charge of Misses G. Taylor and E. Johnson.

**OFFICIALS AND CREWS**  
 The list of officials for the regatta and the crews taking part follow:  
 Dan O'Sullivan, starter; Arthur Cox, referee; J. T. Mann, clerk of course; R. F. Taylor and T. D. Roberts, finishing judges; Ken Hughes and Charles Mallandaine, in charge of crews; Rex Aylmer, announcer. Misses Gert Taylor and Lucille Spark will be in charge of refreshments in the clubhouse.

The crews follow:  
**J.B.A.A.—Tom Kewley (s), Don Stewart (s), Tommy Bishop (s), Fred Cough (s), Bobby Webster (cox), Brentwood College—Kinlock (s), Elmore (s), Kelley (s), Davidson (s), Duncan (cox).**

**SENIOR FOURS**  
 J.B.A.A.—Ken Bonner (s), Jack Sims (s), Barney Smith (s), Dick Sewell (s).  
 Brentwood College—Hyde (s), Wilkinson (s), Campbell (s), Macklin (s), Duncan (cox).

**SENIOR DOUBLES**  
 J.B.A.A.—Edgar and Charles Cotsford.  
 J.B.A.A.—Jim Mann and Hugh Francis.  
 Brentwood College—Hyde (s), Wilkinson (s), Campbell (s), Macklin (s), Duncan (cox).

**SENIOR 140-POUND FOURS**  
 J.B.A.A.—A. Mann (s), Bob Whitten (s), A. Wood (s), Alex Webster (s).  
 Brentwood College—Hyde (s), Wilkinson (s), Campbell (s), Macklin (s), Duncan (cox).

**NOVICE FOURS**  
 J.B.A.A.—Ken Bonner (s), Jack Sims (s), Barney Smith (s), Dick Sewell (s).  
 Brentwood College—Hyde (s), Wilkinson (s), Campbell (s), Macklin (s), Duncan (cox).

**FLAG TIME WINS**  
 San Bruno, Calif., June 16.—Flag Time, owned by J. D. Spreckles, won the Donner Lake, feature race yesterday at the Tanforan track in 1 minute and 10 seconds. Harry Frank was second, and Fred Almy third.

## VICTORIA TO MEET ALBIONS

**Will Play Against League Leaders in Feature Cricket Match To-morrow**

The fourth league matches of the Victoria and District Cricket League will be played to-morrow afternoon. In the feature game, the leading Albions, who have not suffered defeat this year, will meet Victoria at Beacon Hill. The Victoria team is set for second place with the Five C's, one game behind the leaders and victory will place them in a tie for first position.

The Five C's will be out to strengthen their position against the Albions in a match to be played at Dun can. A win for the former team will assure it of second place, while victory for the Albion team will create a tie for the second slot.

In the third game, lowly Wanderers will meet the Incogs at Work Point. The Incogs have won one game this year, while the Wanderers have yet to chalk up their first win. All games start at 2.15 o'clock.

Following is the Albions' line-up: N. P. Pitz, captain; Pendray, Barclay, Enoch, Gibbons, Walton, Pritchard, D. Pite, Davidson, Steil and Freeman.

## Joe Humphries Getting Better

Fair Haven, N.Y., June 16.—Joe Humphries, veteran fight announcer, who has been paralyzed by an apoplectic stroke, showed improvement yesterday, and his physicians said the familiar voice would probably again be heard at sports events in the future.

The physician reported Humphries was able to move his hands more freely yesterday, and to use his right arm a little. He said, however, the announcer would be confined to bed for several weeks.

## THE BIG SIX

With half the Big Six idle yesterday and the others getting only one hit apiece, Chuck Klein was the only major league batting leader to show an improved average. Chuck had one hit in two official times at bat and added one point to his percentage.

## Fights

**BOXING**  
 Pittsburgh — Sunny Jim McVey, Pittsburgh, stopped Buddy McArthur, Fairmont, W. Va., (s); George Simpson, California, knocked out Jack Wilson, Pittsburgh (1); Lloyd Clements, Jesmette, Pa., knocked-out Jack Pallet, Cleveland (2).  
 Chicago — Pugy Wainert, Chicago, outpointed Apdy Divodi, New York (10).  
 St. Louis — Dave Barry, St. Louis, stopped Chick Wagner, Louisville (4); Eddie Edson, St. Louis, outpointed Russel Gross, Quincy, Ill. (10); Joe Red, Little Rock, Ark., outpointed Peevce Jarrell, Fort Wayne, Ind. (10).

# Qualifying Trials For Olympics Will Be Run To-morrow

et Will Be Staged in Con-  
tention With Annual Y.M.C.A.  
Junior Contest

## Select Local Representatives

ries For "Y" Competitions  
e Announced; Keen Races  
Anticipated

Qualifying trials for the  
annual Junior Olympics  
track and field meet in  
Vancouver will be staged  
to-morrow afternoon in con-  
junction with the annual  
junior and intermediate  
meet of the Y.M.C.A. Ef-  
forts are being made to  
secure the Oak Bay park for  
the meet and further an-  
nouncement of this will be  
made this afternoon or this  
evening, when competitors  
and interested spectators  
are requested to telephone  
the association for further  
information.

Entries for the Y.M.C.A. events  
closed yesterday evening and from  
present indications some keen com-  
petition is promised. All candidates  
for the Junior Olympics are advised to  
be on hand as it is necessary they  
should comply with the qualifying  
standards set out for the mainland  
tests.

**YOUTH LIST SET**  
Coach Archie McKinnon has a ten-  
tentative list of the Victoria's representa-  
tives completed, all of whom he be-  
lieves can qualify for the Olympics.  
The Y.M.C.A. races are divided into  
three classes, the preparatory class,  
junior and intermediate. The first is  
for boys under twelve, the second for  
boys under fifteen and the third for  
boys under eighteen. The age limit for  
Vancouver meet this year is under  
eighteen years.

**PREPARATORY CLASS**  
0-yard dash—Spencer, Dennison,  
in Rowntree, Toby Batten, F.  
mes, Glyn Creighton, Jimmy Mair,  
er Mutton, Archie Campbell, Don  
Kay.  
50-yard dash—Bill Morry, Bill  
owies, Spencer Dennison, Ewan  
vntree, Frank Holmes, Lawrence

## Duncan Ball Team Will Perform Here

Meet Slingers in Two Exhibi-  
tion Games at Athletic Park  
To-morrow

Tillicums and Slingers Will  
Clash This Evening in  
League Fixture

"Slingers' ball team faces a busy  
week-end with three games facing  
them. To-night at the Athletic  
Park they will oppose the Tillicums  
in a regular Senior Amateur  
League game, while to-morrow the  
local club will appear in a pair of  
exhibition fixtures against Duncan,  
starting at 3 and 6 o'clock. To-  
night's engagement will get under  
way at 6:15 o'clock.

With a chance to get out of the cel-  
lar with a win, Slingers are determined  
to set back the Tillicums. The latter  
are in a tie with the Sons of Canada  
for second place but a loss to-night  
would drop them into last position.  
Art Carr, rookie right hander, will  
start on the mound for Slingers with  
Worthington completing the battery.  
Lloyd Jones is the most likely starting  
pitcher for the Tillicums. The club-  
men will be without the services of  
Harry Down, their regular backstop,  
who is laid up with an injured foot.  
His place will be taken by Wally Stipe  
**EXHIBITION GAMES**  
To-morrow's exhibition games against  
the up-land nine will find Slingers  
strengthened by the addition of Roy  
Barnes, first string catcher of the Sons  
of Canada, and one more pitcher from  
one of the other three senior clubs.  
Roy Haines is reported to have a first-  
class team and in several games on  
their own diamond this year have  
turned in victories over Victoria clubs.  
Roy Haines, who performed in the  
outfield with the Sons of Canada last  
year, will be on the visitors' line-up.  
Goldie McKinney, Cameron's star  
pitcher, is from Duncan and may help  
them out to-morrow.  
Officials of the Senior League are  
planning to bring the Tacoma Kittens  
to town next Saturday for a pair of  
games. The Kittens have played here  
for the last two seasons and are one  
of the finest out-of-town clubs to ever  
play in this city. They will be under  
the management of Vince Duckwitz.

## SOMERVILLE AND PARTNER VICTORS

London, June 16.—Splendid play  
by C. Ross Somerville, London, Ont.  
United States amateur golf champion,  
was largely responsible for a victory by  
Somerville and Brig-Gen. A. C. Critan-  
ley, formerly of Calgary, in a four-bat-  
tled match with Cyril Tolley and T. A. To-  
rance at Hoylake to-day. The result  
was 2 and 1.  
Somerville is tuning up for the Brit-  
ish amateur championship, which  
opens at Hoylake Monday. The match  
attracted wide attention as Brig-Gen  
Critanley is the French amateur cham-  
pion. Tolley has twice been British  
amateur champion and Torrance was  
captain of the last British Walker Cup  
team.

## BODYGUARD FOR DODGE CHILDREN

Associated Press.  
New York, June 15.—With their two  
children guarded against possible ab-  
duction attempts, Horace A. Dodge Jr.,  
son of the late automobile manufac-  
turer, and his wife returned yesterday  
from Europe. A private bodyguard  
surrounded the children, David, three,  
and Diana, one, as the family came  
ashore.

## BOXING IN SIAM

By AL DENAREE  
Some of the people who are always  
wailing and talking of the brutality of  
United States prize fights and some  
of the fighters who always "foul" so  
easily, should study Siamese boxing  
rules.  
In Siamese boxing rules a man may  
not be bitten or kicked while he is on  
the floor. Everything else goes. A  
blow from any part of the body to any  
other part of the body is legal. They  
wear cotton ropes between their  
fingers with knots tied on the knuckles  
instead of gloves.  
Kicking an opponent in the throat  
and face, and butting him in the groin  
with the head is commonplace.  
The rounds are five minutes long and  
the boxers rest five minutes. A drum  
is used instead of a bell to start and  
finish the rounds.

# GAME SEASONS ANNOUNCED

Regulations Governing Game  
and Fur-bearing Animals  
Set By Government

Deer Season From Sept. 16  
to Dec. 15; Arrange Game  
Bird Seasons Later

Regulations governing game and  
fur-bearing animals and a few  
classes of game birds for the 1933-  
34 season were announced yester-  
day by the B.C. Government. Sea-  
sons for the remaining game birds,  
other than duck, brant and  
pigeons, will be announced at a  
later date.

The season for deer, bucks only, in  
the western district, which includes  
Vancouver Island, has been set from  
September 16 to December 15, except-  
ing Mayne Island. The season for  
ducks and snipe in the western district  
is October 15 to January 31. Band-  
tailed pigeons will be lawful game in  
the western district from September  
9 to October 15. Live decoys are pro-  
hibited.

The regulations as announced yester-  
day follow:  
**EASTERN DISTRICT**  
Moose (males), in Atlin, Fort George,  
Caribou, Omineca and parts of Skeena,  
September 1 to December 15. In Fernie  
and parts of Columbia, September 15  
to October 31.  
Caribou (males), in Eastern District,  
except Mackenzie and Skeena, part of  
Cariboo and south of the main line of  
the C.P.R. railway, September 1 to  
December 15. South of C.P.R. tracks,  
September 15 to September 30.  
Wapiti (males), in Fernie and Colum-  
bia, except parts of Columbia west  
of Columbia River, September 15 to  
October 15.  
Mountain sheep (males), in Eastern  
District north of main line of C.N.R.,  
parts of Cariboo and Lillooet, and dis-  
tricts of Fernie, Cranbrook and Col-  
umbia, from September 1 to Novem-  
ber 15.

Mountain goat, in Eastern District,  
except North and South Okanagan  
and Grand Forks-Greenwood, from  
September 1 to December 15.  
Bear (except Kermodei), in Eastern  
District, from September 1, 1933, to  
June 30, 1934. No bear may be trapped.  
Deer (mule, white-tail and Coast),  
bucks only, throughout Eastern Dis-  
trict with few exceptions, from Sep-  
tember 16 to December 15. A fifteen-  
day season from December 1 to Decem-  
ber 15 is declared on does in the East-  
ern District south of the main line of  
the C.P.R., except in Lillooet and Yale,  
and except white-tail deer in areas  
otherwise restricted.

**FUR ANIMALS**  
Beaver and muskrats, throughout  
Eastern District, March 1, 1934, to  
May 15, 1934.  
Other, throughout Eastern District,  
December 1, 1933, to May 15, 1934.  
All other fur-bearing animals in  
Eastern District, November 1, 1933, to  
February 28, 1934.  
The usual season on duck, snipe,  
coots, geese and brant, with some  
territorial exceptions, is provided  
within September 15 to December 31.

## George Headley Scores 200 Runs

Derby, England, June 16.—When  
George Headley—the "Black Brad-  
man"—had scored 200 runs and was  
still unbeaten, the touring  
British West Indies cricket eleven  
this afternoon declared their sec-  
ond innings against Derby closed,  
with 346 runs for eight wickets.  
First-innings scores were 281 for the  
West Indies and 319 for Derby.

## SONS CAPTURE KEEN BATTLE

Defeat Taiyos 3 to 2 For  
Fifth Straight Win in Twi-  
light Baseball League

Sons of Canada scored their fifth  
straight victory in the Twilight  
Baseball League, at the Athletic  
Park yesterday evening, by turning  
back the Taiyos 3 to 2 in one of  
the best games this season. The  
Sons are leading the circuit by a  
two-game margin over the Taiyos  
and Rosebuds, who are tied for  
second place.

The Sons only collected five hits, in-  
cluding a triple by Henry Woodford  
and a double by Noel Morgan, but they  
were enough to win. Wilf Shoultice  
pitched for the Sons and struck out  
seventeen and held the Japanese to  
two hits.

Kawaguchi, who handled the pitch-  
ing duties for the Nippons, worked  
hard, striking out eleven, but his sup-  
port was miserable, no less than six  
errors being scored against his team-  
mates.

left on bases, Taiyos 3, Sons of Can-  
ada 7.

**Empires—** Chesworth and Taylor.  
Time of game, 1 hour 50 minutes.

**Canadian Press**  
New Philadelphia, O., June 16.—  
Charges that her husband, Clarence  
O. Centobien, had not taken a bath  
for five years and had limited her to  
the use of two matches a day were  
contained in the divorce petition filed  
by Mrs. Eunice O. Centobien, Dennison,  
Ohio.

in Creston, Nelson and Kaslo-Slocan,  
from September 15 to November 30;  
in Omineca, Fort George and Atlin,  
from September 1 to December 15.

**WESTERN DISTRICT**  
Mountain goat, in Western District,  
except on Vancouver Island, September  
16 to December 15.  
Bear (except Kermodei), through-  
out Western District, September 16,  
1933, to June 30, 1934. No bear may be  
trapped.

Deer (mule, white-tail and Coast),  
bucks only, throughout Western Dis-  
trict, except Mayne Island, September  
16 to December 15.  
Beaver and muskrats, north of fifty-  
first north latitude (except Queen  
Charlotte Islands), March 1, 1934, to  
May 15, 1934; in parts of Lillooet, De-  
cember 1, 1933, to May 15, 1934; in  
remainder of Western District, except  
Vancouver Island, December 1, 1933,  
to March 31, 1934.

Otter (except sea otter), in the same  
areas as for beaver, with the following  
open dates: December 1 to May 15,  
and December 1 to March 31, respec-  
tively, as for beaver and muskrats.  
All other fur-bearing animals, north  
of fifty-first latitude (except Queen  
Charlotte Islands), November 1 to Feb-  
ruary 28; in remainder of Western  
District, December 1 to February 28.  
Ducks, snipe, etc., October 15 to  
January 31; opening at 5:30 a.m. daily.  
Black brant, November 15 to Febru-  
ary 28.

Band-tailed pigeons, September 9 to  
October 15; with live decoys prohibited.

**BAG LIMITS SET**  
In the Eastern District, bag limits  
include three deer, two grizzly bear,  
and three other bear. North of the  
C.N.R., two mountain sheep, and else-  
where in Eastern District, one moun-  
tain sheep. North of C.N.R. two car-  
ibou. Throughout province as whole,  
one wapiti, one moose and two moun-  
tain goat.

Ducks, daily bag limit twenty, total  
150; geese and brant, ten and fifty;  
Wilson snipe, twenty-five and 150;  
coots, twenty-five and 150; pigeons,  
ten and fifty, respectively.

# Wheat Trading Is Lethargic; Futures End Off Fractions

Winnipeg, June 16.—Falling to show falling tendencies, wheat futures prices closed to-day's quiet session of the Winnipeg Grain Market as they had traded throughout, lethargically. At the close values were 1/2 to 3/4 cents down, July at 64 1/2, October 66 1/2 and December 67 1/2 cents.

Export sales, announced late in the session, failed to impart any enthusiasm to trading. Purchases by foreign importers, mostly taken overnight, were estimated at 500,000 bushels, and were offset by some "hedging" sales from elevator interests.

To-day's session was one of the quietest in weeks as grain traders, spending most of their time scanning weather reports from the west, took little interest in market operations.

A fairly active opening period comprised most of the day's business. Weakness at Chicago, which yesterday failed to affect local values, induced a minor downturn here to-day and prices soon slipped off from their starting advances.

Cash grains again were quiet throughout, closing practically unchanged. Coarse grains turned easier with wheat futures, grain providing the feature in that pit as it sagged more than two cents at one time.

## To-day's Grain Markets

## MONTREAL HAS DAY OF LOSSES

Montreal, June 16.—Despite a rally in the late trading, prices on the Montreal Stock Exchange finished to-day's session with losses holding a wide majority over gains.

Brazilian Tracoe held firm at 15 1/2 while International Nickel was up 1/2 cent at 18 1/2. Consolidated Smelters recovered to 124 where it closed with a gain of 1/2 points. Montreal Power rose 3/4 at 35 1/2.

Canadian Pacific lost 1/4 and Shawinigan Power held firm. Steel of Canada dipped 3/4 points at 26. Losses of from one to four points were suffered by Dominion Textile, Gurd, National Steel Car, Power Corporation, Bank of Commerce, Bank of Nova Scotia, Simon, Hamilton Bridge and Quebec Power.

## TORONTO MINE TREND BEARISH

Toronto, June 16.—Mining stocks, churning about to-day in a highly nervous state, wading through alternative reports of buying and selling to come up fairly strong at the close.

McIntyre closed at 36, up 1.50. Lake Shore unchanged at 41. Pioneer held at 12.50 and Hollinger down to 9.40 while Teck and Wright Hargreaves were up about 25 cents each.

Nickel—finished strong about 40 cents higher, while Copper recovered a drubbing, falling to 5.50 off 65 cents, then recovering to 5.75. Hudson Bay, Sheritt and Sudbury Basin lost a few cents each.

## BOARD PLEASED WITH BRALORNE

Reports on Gold Prospects and Financial Position Given at Annual Meeting

## TORONTO MINES AND OILS

Vancouver, June 16.—One vein in the Bralorne Mine has been opened up better than the directors had expected, anticipated, stated Austin C. Taylor, president, at the annual meeting of the shareholders in Vancouver yesterday.

Since they crossed the No. 1 fault they had opened up a big body of ore greater than they best hopes had led them to expect. In places the vein which is now in 410 feet on the eighth level had a width of nineteen feet and the average was about twelve feet. It was a little difficult to give the exact assay value, but it was from 75 to 81 a ton, he stated. The tenth level was the lowest in the mine and was at a depth of about 900 feet from the surface.

The chairman further reported the power plant, some parts of which had already arrived in Vancouver, would be installed in the next two months. A new crusher had been ordered. The mill was at present running at about 150 tons a day, capacity, and it would be stepped up to from 150 to 180 tons in the next six months. By next fall it was hoped to have it up to about 200 tons. The new mill would have a capacity of 250 tons when completed.

Asked if any work was being done on the Coronation group, Mr. Taylor stated that in view of the large body of ore that had been developed in the new vein it was not considered advisable to expand any more money on new development at present. Two dollars a ton was being expended on development at the present time, and since it was desirable to conserve as much money as possible for the shareholders it was not deemed advisable to do any work on the Coronation claims.

## FINANCIAL POSITION

"How much money have you in the treasury?" asked a shareholder.

"We have paid off our debts and don't owe any money," replied Mr. Taylor.

W. W. Boutilier, secretary, read a supplementary statement in which he said of the \$80,000 which the Bralorne mill owed the Bralorne syndicate at the end of the year, another \$50,000 had been paid off since, and the company had present on hand a sum of \$30,000.

The possibilities of the Bralorne were still two miles of unexplored property to the present workings to the boundary of the Pioneer.

One shareholder asked that the company make monthly reports of progress, but Mr. Taylor said the work was of such a nature that little could be served by such a policy. They wanted to be conservative in the information they issued.

Another shareholder thought greater development might be done with the view of speeding up production, since shareholders were interested in immediate returns rather than in the possibilities for the future.

"If you think we can take all the gold out of Bralorne in a few years then you are mistaken, because we can not do it," replied Mr. Taylor. "Meantime we have five years' ore in sight on the basis of a milling operation of 100 tons a day, and that is a lot of ore. The mill is at present running continuously for twenty-four hours a day, and would soon be handling at least regularly 150 tons each twenty-four hours' period."

## CONSOLIDATED RAISES WAGES

Canadian Press  
Trail, B.C., June 16.—S. G. Blaylock, vice-president and general manager of the Consolidated Mining and Smelting Company, to-day announced the recent 5 per cent cut in wages of Consolidated employees made because of low metal prices, was because of higher prices prevailing to be moved, so that wages will be increased by the amount of reduction. Employees will receive the higher wages on the first pay day in July.

## TORONTO PRODUCE

Toronto, June 16.—The following quotations on produce delivered at Toronto were given by the United Farmers' Co-operative Co. to-day:

**ne Husbands Worth Weight in Gold;  
Others Total Losses, According to Happiness  
Or Opposite Mental Outlook of Their Wives—  
Value of Attributes Catalogued by the Writer**

W MUCH is a husband worth? A woman who is suing another woman for stealing her husband from her values her purloined spouse at a million dollars, and asks damages in that amount.

Most wives this will seem an excessive valuation to put upon a husband, and they will wonder a woman who possessed such a treasure did not take better care of it. She did not keep him under lock and key, or keep him on the leash, or take every precaution against his being lost, or against his being stolen. For it is only obvious that when wives lose their husbands or their pearls it is through carelessness and because they sleep at the switch, so to speak.

But be that as it may, it leaves a woman with a husband still untried. Of course, there are some men who are go-getters whose cash goes to their wives and can easily be traced in dollars and cents. They are worth so many towns and untried houses, so many trips to Europe, so many limousines, so much Paris finery. And there are other men who are lovers as well as husbands and who are so tender, so kind, so understanding and sympathetic that their price is above rubies.

But the great majority of women get neither Mr. Ford nor Romeo for a husband, and that makes it interesting to speculate about what the common, ordinary, variety of husband is worth to his wife, and whether a wedding is a good investment or not to the average woman.

In reality a husband is like a piece of bric-a-brac. He is worth to his wife just what she thinks he is worth. If she considers him something rare and precious, he is worth his weight in gold to her. If she thinks him cheap and common and has lost her taste for him, he is a total loss. But most women even a mediocre husband is valuable for the following reasons:

First: Because a husband saves a woman from the fate she dreads worse than death, and that is being an old maid. Goodness only knows why any woman in these days of female emancipation should think it a disgrace not to be married, but the great majority of the sex hold to this obsolete theory. A married woman once said to me that she had worked a lot harder to write Mrs. Jones than she had to put Ph.D. after it. And that point of view is not less general. A shabby married woman will high-tail a spinster in an effort to escape the most common of all fates that have befallen women if they have not achieved a wedding ring.

Second: A husband is valuable as a meat ticket. He may be considerably over the way the remainder of the time, but he is handy to have around the house the first of the month when the bills come in. A woman has to work a long time and be unusually successful in business before she can get up for herself even the modest home and car that her husband gives her as a matter of course.

Third: A husband is valuable as a flavoring for life. Sometimes he makes sweet for her. Very often he makes it hot, but in any event he keeps her from being flat and tasteless. She has somebody to work for. Somebody to put up with. Somebody who goes and comes and sets the clock for her. Somebody to try to please. Something to think about besides herself. In a husband who is a standing grievance has his value. He may break his wife's heart, but she never perishes of boredom as the old maid so often does.

Fourth: A husband is valuable as a steady date. The social world seems to be made up of two classes, and after a woman is too old to have a boy friend always hanging around, anxious to step out with her, she is simply stuck if she hasn't a husband. No matter how attractive the old maid or the widow may be, she is left out of a lot of the pleasant little gatherings, not because she hasn't any man to bring along with her, for hostesses won't be bothered hunting her up an escort.

Fifth: Husbands are valuable as sparring partners. Most women enjoy a fight now and then, and it is a comfort to have somebody that you don't have to be polite to or handle tactfully, and who will give you as good as you give in a stand-up fight. And that there is a lot of danger in it merely adds to the thrill of the encounter.

Sixth: Husbands are valuable because they afford the one perfect alibi that can never be checked up. They are a standing excuse for everything a wife does or leaves undone. The married woman doesn't brusquely decline when you ask her to do something she doesn't want to do. She says: "I must ask my husband," or "My husband simply won't let me do this and do, or give to this and that." Thus do the meekest and most henpecked of men become stern domestic tyrants in whose shadows their wives hide and escape criticism.

So for these, and a hundred other good reasons, husbands are valuable possessions to their wives, and it is no wonder that they resent having them taken from them.

### Mountains of Stone

When we look at some mountains, we might suppose them to be composed of soil; but the soil is just another covering. Under it, in every case, is a mass of rock.

Everest, the earth's highest peak

as soon as he reaches high mountain levels. To do so is likely to overstrain the heart. Before I climbed that peak I had been camping for more than two weeks at a level of about 9,000 feet.

Strain on the heart comes because the air is very thin on high mountains. It is harder to take in oxygen than at low levels. Nature cares for people who live in the mountains; she supplies their blood with a larger number of red corpuscles, and these make it possible to draw more oxygen from the air.

How high must a hill be before it can be called a mountain? That depends to some extent on the place where the hill is. A prairie farmer might call a 500-foot hill a "mountain," but a native of Colorado would think that the hill did not deserve the honor. In general, the name mountain is given only to land rising more than 1,000 feet. Highest of all mountains are the Himalayas, they have one peak—Mt. Everest—which is five and a half miles above sea level.

### Horoscope

SATURDAY, JUNE 17, 1933

Adverse planetary aspects appear to dominate today, according to astrology. It is a time especially favorable for day instead of work.  
The planetary government favors persons who represent success in any form and for this reason may be a bit discouraging to the rank and file.  
It is a fortunate way, however, for astute support or aid in important matters and should be fairly lucky for promoters as well as politicians.  
The wise will seek the country while this
